Training on e-Taal held

May 27, 2016

ITANAGAR, May 26: A video conference based training-cum-workshop on eTaal (e-Transaction Aggregation and Analysis Layer) Portal was organized on Thursday for the stakeholders of Govt. of Arunachal Pradesh by national informatics centre (NIC). The NIC New Delhi aided the training.

The program was held as per the directions of the Secretary (IT), Govt of Arunachal Pradesh. The objective behind organizing the training programme was to sensitize the officers of IT Department and software application developers of various projects providing G2C/G2B/G2G services.

eTaal (http://etaal.gov.in) is a web portal for dissemination of e-Transaction statistics of Central and State level e-Governance Projects including Mission Mode Projects. It receives transaction statistics from web based applications periodically on near real time basis. eTaal presents quick analysis of transaction counts in graphical form (Bar Chart, Pie Chart, Bubble Chart, etc.) and as Tabular Statements to give quick view of transactions done by various e-Governance projects.
