

Workshop on E-Taal Held

Kerala is placed below states like Assam, Bihar, Chhattisgarh and Uttarakhand with respect to use of e-Taal in conjunction with e-governance

Express News Service

T'Puram: Kerala State IT Mission (KSITM) and National Informatics Centre (NIC) jointly organised a workshop on Monday on 'The Application of e-Taal with e-Governance applications'.

Though the state is one of the leading states in electronic service delivery, the electronic transactions have not been reflected correctly in the e-Taal web portal which monitors such transactions.

At Central government-

level, the number of electronic transactions of various states is being monitored through e-Taal.

"We are placed at a lower position much below states like Assam, Bihar, Delhi, Chhattisgarh and Uttarakhand with respect to our use of e-Taal in conjunction with e-governance applications," said the director of KSITM Muhammed Y Safirulla.

The Central government has requested the state to make use of e-Taal web portal to share the statistics related with the state's e-

governance applications.

E-Taal is a web portal for disseminating statistics of e-transactions of national and state-level e-Governance Projects, including Mission Mode Projects.

E-Taal web portal (www.etaal.gov.in) manages transaction statistics from web-based applications periodically on near-real-time basis.

E-Taal presents quick analysis of transaction counts in tabular and graphical form to give quick view of transactions done by various e-governance projects.
