1. Introduction

All Ministries and Departments of Central and State/UT Governments have been implementing e-Governance projects for providing e-Services to citizens. An idea about the impact of e-Services can be obtained from the number of e-Transactions taking place under these applications implemented by various Government Ministries/Departments.

Accordingly, Ministry of Electronics and Information Technology (MeitY) and National Informatics Centre (NIC) have developed the Electronic Transaction Aggregation & Analysis Layer (eTaal) portal (URL: <http://etaal.gov.in>) to provide an aggregated view of e-Transactions performed through e-Governance applications implemented including, but not limited to, the national-level mission mode projects (MMPs) under the National e-Governance Plan (NegP). eTaal automatically pulls the e-transaction count, but not the personal details, from the applications using web service technology. The dashboard also facilitates quick analysis of data of various applications in tabular as well as graphical form enabling users to drill down to the lowest level of detail without compromising security and integrity of the servers from where data has been captured.

eTaal serves as a platform for providing integrated, real-time aggregated view of e-Transaction statistics for major e-Governance programmes which are govt-to-Citizen (G2C), govt-to-Business (G2B) and Business-to-Citizen (B2C) in nature.

The category of stakeholders comprise of:

- 1) Central Ministries/ State & UT Governments/ Departments
- 2) Academic institutions and researchers
- 3) Non-Governmental Organisations
- 4) Citizens

eTaal facilitates quick analysis of transaction data shared by various applications in tabular as well as graphical form enabling the user to drill down to the lowest possible level. It also enables the user Ministry/Department to view the consolidated picture of e-Transaction statistics of various e-Governance projects across the country and to visualize the status of utilization of various e-Governance applications running across the country.

eTaal provides visibility to the number of e-Transactions in national and state level e-Governance services being provided in the country. The e-Transaction count for services registered on eTaal portal has been increasing on yearly basis and 3020 eServices from 21 Central Ministries and all 36 States/UTs and 20 Mission Mode Projects (MMPs) have been registered with eTaal as on 21st June 2016. This reflects the government-wide acceptability of eTaal. Around 1600 crores e-transaction count have been recorded so far since the inception of the project in 2013.

Government is implementing digital India programme as an umbrella programme to prepare India for knowledge based transformation into a digitally empowered Society and knowledge economy. Government has also proposed to implement “e-Kranti: National e-Governance Plan (NegP) 2.0” under the digital India programme with a vision to transform e-Governance for transforming Governance and keeping in view the need to utilize emerging technologies.

The eKranti or NegP 2.0 framework proposes new and substantially revised models of implementation and service delivery. NegP 2.0 envisages government wide transformation by delivering all government services electronically to the citizens through integrated and interoperable systems via multiple modes.

The present eTaal system deals with quantitative analysis only. As per discussions held in the Apex Committee meeting on e-Governance, it was highlighted that eTaal portal, which captures e-Transactions for various MMPs / e-Governance projects should be improvised to capture the qualitative aspects as well.

In view of eKranti framework, a plan is afloat to develop eTaal 2.0 to address the qualitative aspects of service delivery, thereby, bringing in the concept of ‘QUANTITY’, which means ‘QUANTITY’ with ‘quaLITY’.

For the improvisation of the application, the following features are planned to be incorporated under eTaal 2.0:

- Weighted average system for various services - A system is being developed for assigning appropriate weightages for various categories of eServices for qualitative analysis of the service data and ranking of projects and states on standardized parameters. The strategy is to define parameters to measure service quality and then assign weights and develop frameworks.
- e-Service directory - To facilitate the view of e-Services being delivered across the country, e-Service directory is being developed. The e-Service directory provides the details of e-governance application delivering the service along with the details of spatial spread for a given service. It helps citizens in finding state level services grouped in a particular standard service.
- Business Intelligence (BI) Tools - BI will give extra edge to eTaal and establish it as the most logical choice for monitoring and tracking the progress of various initiatives as well as decision making by the government.
- State Portal- A personalized portal for states and union territories by the name of “State Portal” is being implemented on the eTaal website. It helps citizen in finding state level services grouped in a particular standard service.
- Mobile Application for eTaal- Mobile Application for eTaal is being developed and using this app, currently, the users can get the information of e-Transaction count through their mobiles.

1.1 Purpose of the Document

The purpose of the document is to enable the user to identify e-Transactions, categorize various services and effectively use the application. The user may further view the e-Transaction count for various Central and State projects and MMPs as well as perform various analysis.

The document also aims at providing the users all the necessary information for registration of their respective services and integration of the data from those services with eTaal.

1.2 What is an e-Transaction

An e-Transaction is a transaction delivering public service using ICT tools to improve access, enhance transparency and reduce response time while also satisfying all of the following four conditions:

- a. Service is requested through electronic means (self-access or assisted access) including mobile devices
- b. Workflow/approval process is electronic
- c. Database is electronic/digitised
- d. Service delivery is electronic Across the Counter Services

In several instances, the relevant information is proactively collected, digitised, verified and stored in digital repository and when the citizen requires the service, he/she can avail it immediately across the counter. Since, such cases fulfil all the pre-requisites of an e-Transaction, these can be considered as Across the Counter services.

1.3 List of Standard Services

A large number of services are being offered by various Ministries/ Departments/ Organizations at Central and State governments. However, the name of a particular service may vary across the states. For example, the Record of Right (RoR) is known as Pahani, Khatauni, Patta etc. in different states. For ease of classification, grouping and presentation in a uniform manner, the services have been defined by NIC and MeitY as follows:

Sl. No.	Standard Service	Description
1	Certificates	All type of statutory certificates issued by government i.e. Caste Certificate, Income Certificate, Birth Certificate etc. come under this category.
2	Licenses and Permits	Services related to licenses & permits like arm licenses, inner line permits, etc. come under this category.
3	Land Records	Services related to land registration come under this category.

Sl. No.	Standard Service	Description
4	Integrated Finance Management Services	Integrated Finance Management Services includes services related to finance management like treasuries.
5	Commercial Tax	It includes services like dealers Registration, VAT Returns, payments etc.
6	Utility Services and Bill Payment	Utility services like electricity, gas, water, telephone etc. and their bill payment come under this category.
7	Social Welfare and Pension	It includes services like Sr. citizen, old age/widow pension, freedom fighter pension etc.
8	Transport	It includes services like driving License Issue, Registration of Vehicle, Transfer of Ownership etc.
9	Education	Services like backward class scholarship, post metric scholarship etc. are covered.
10	Public Distribution System	It include services like Issue of Ration Card, Modification of details in Ration Card, etc.
11	Agriculture & Allied	The services under this category are: Agriculture Market Information, Agricultural Advisory Service, Animal disease Alert, etc.
12	Court and Judiciary	It includes services like cause list, case proceedings, certified copy of judgment/daily order, etc.
13	Election	This service includes Electoral Roll Creation etc.
14	Police	This includes services like FIR Lodged, Missing/ Lost persons, etc.
15	Personnel and Admin	This includes services like Employee Training, posting/transfer, ACR status monitoring, etc.
16	Grievance	This includes services like grievances Received & Redressed.
17	RTI	This group includes any e-transaction related to RTI Act.
18	Information Service	It provides data/knowledge/information on various services offered through dial.gov service, forms download, Govt. Programs and schemes etc.
19	Property Registration	Services related to registration of property acquired or transferred come under this category.
20	Health	Services like Child Registration, Pregnant Women Registration, Patient Registration, etc. come under this category.

Sl. No.	Standard Service	Description
21	Rural Development	Services like Job Card Issued, Job demanded and Job Provided under MGNREGA are included here.
22	Employment	This includes services related to registration of potential candidates/ unemployed youth etc.
23	e-Procurement	It includes services like No. of Bidders Enrolled, No. of Tenders Created, No. of Bids Received, etc.
24	Industry and Commerce	It includes services like Registration of Companies, Registration of LLPs etc.
25	Urban development including Municipality Services	It includes services like Flat allotment and municipality taxes by State development authority.
26	Passport & Visa Services	It includes services related to passport and visa.
27	Financial Inclusion	It includes services related to financial inclusion.
28	Skill Development	It includes services related to skill development.
29	State Specific Services	There are certain services that are specific to a particular state. Those services are not found in other state. Such services come under this group.
30	Other Services	Services which are not included in any of the above mentioned standard services are covered under this group.

1.4 List of Category of Services

Services being offered by various Ministries/ Departments / Organizations at Central and State Governments have been classified into six categories, namely;

- a. **Category A** comprises:
 - i. All statutory services
 - ii. Payment of taxes by citizens (Income Tax/VAT etc.)
 - iii. Payment of subsidies/ Scholarships/ Social benefit transfers (DBT etc.)
 - iv. Non-statutory services
 - v. Services delivered under PDS/Rural development schemes
- b. **Category B** comprises Utility Bill payments (Water bill, telephone bill, electricity bill etc.)
- c. **Category C** comprises other B2C Transactions (e.g. banking transactions, addition of mobile numbers in do Not Call registry by Telecom service providers etc.)

d. **Category D** comprises:

- i. Information access from various e-Governance Portals/Websites after login
- ii. Down loading of forms
- iii. Enquiry (such as Passport Status, dial.gov.in service, result of an examination etc.)

e. **Category E** comprises Repetitive government disbursements to citizens like social sector pensions, MGNREGA Payment, DBT, and Scholarships etc. which are periodic in nature are to be accounted in this category.

f. **Category F** comprises End-to-end services delivered through mobile device.

2. How to Access the Dashboard

The portal may be accessed using the following URL:

<http://etaal.gov.in>

Following Home Page will be displayed:

The screenshot shows the eTaal dashboard homepage. At the top, it displays the eTaal logo, the Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India logo, and the Digital India logo. Below this, the main title is "National e-Transaction Count". It features two large numerical displays: "Since 1st Jan, 2016" with the value "3,26,36,75,609" and "Since 1st Jun, 2016" with the value "58,96,53,998". Below these, it says "Total Number of e-Services Integrated" with the value "3,020". Further down, there is a section titled "Top 5 States of June 2016" with a bar chart showing the transaction counts for Andhra Pradesh, Telangana, Gujarat, Kerala, and Uttar Pradesh. The chart has blue bars for Andhra Pradesh and Telangana, and smaller bars for the others. At the bottom, there are links for "Downloads" (including eTaal User & Technical Document, eTaal Brochure, and Android App), the NIC logo, and the National e-Governance Plan logo.

3. Functionalities of eTaal

Major functionalities incorporated in eTaal web portal are as follows:

1. e-Transaction view of Central / State govt. Projects aggregated at various levels.
2. Viewing e-Transaction count on the basis of standard service.
3. e-Transaction view for MMPs aggregated at various levels.
4. Viewing e-Transaction count on the basis of Across the Counter Service.
5. Viewing e-Transaction count of NOFN Service.
6. Viewing e-Transaction count on the basis of category of services.
7. Drill-down feature to get detailed view of e-Transaction count.
8. Time line analysis of e-Transaction count across time-periods.
9. Graphical and Tabular presentation of e-Transaction count.
10. Service enrolment feature.
11. The homepage of eTaal displays the names of Top 5 Projects and States/UTs on the basis of the monthly transaction count.

4. eTaal Home Page

The screenshot displays the eTaal Home Page with the following key elements:

- Header:** eTaal logo, "Electronic Transaction Aggregation & Analysis Layer", Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India, and Digital India logo.
- Main Section:** "National e-Transaction Count" with two large numbers: "Since 1st Jan, 2016" (3,26,36,75,609) and "Since 1st Jun, 2016" (58,96,53,998).
- Information:** "Total Number of e-Services Integrated" (3,020).
- State-wise Analysis:** "Top 5 States of June 2016" bar chart showing transaction counts for Andhra Pradesh, Telangana, Gujarat, Kerala, and Uttar Pradesh.
- Downloads:** eTaal User & Technical Document, eTaal Brochure, and Android App.
- Logos:** India Government logo, NINCS logo, and National e-Governance Plan logo.

eTaal Home Page

Home Page Menu Bar

The screenshot shows the eTaal Home Page menu bar with the following items:

- eTaal logo, "Electronic Transaction Aggregation & Analysis Layer".
- Navigation links: Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, User, Accolades, Select Language, and Digital India logo.

1	Home	This is the landing page of eTaal.
2	e-Transactions View	<p>It shows the e-Transactions of various eServices under the following categories:</p> <ul style="list-style-type: none"> i. Central Govt Projects ii. State govt Projects iii. Standard Services iv. Mission Mode Projects v. Across The Counter vi. NOFN vii. Categories
3	Analysis	<p>It shows the different type of graphical analysis on e-Transaction data. The various categories of analysis available under this tab are as follows:</p> <ul style="list-style-type: none"> i. Time Line Analysis ii. Comparative Analysis iii. Line Chart Analysis iv. Analysis of Services
4	Report	<p>The Report tab on the eTaal homepage shows the different types of reports generated on the basis of the services e-Transaction count. The various categories of Reports generated under this tab are as follows:</p> <ul style="list-style-type: none"> i. State Wise Transaction Per 1000 Population ii. State Wise Transaction Per Services iii. Category Wise Transaction
5	Service directory	<p>It provides the view of eServices being delivered across the country. The users can search for the relevant services on the basis of following search parameters:</p> <ul style="list-style-type: none"> i. Type i.e State, Ministry & All ii. Select the relevant State / Ministry / All iii. Category iv. Standard Service v. Service Name
6	State Portal	<p>The link “State Portal” on the eTaal dashboard, allows the users of different states to view the e-Transaction counts. This interface contains separate links for all the 36 states and union territories. The link of individual states further redirects the user to the individual state portal from where a user can view the total transaction count and the e-Transaction count of the various standard services integrated with the specific state.</p>

7	FAQs	The FAQs link on eTaal Menu provides the responses to Users on few of the general queries pertaining to eTaal application. The queries responded to comprise of: 1. What is e-Transaction? 2. What are the e-Transaction Categories? 3. What are the Standard Services? 4. How to get e-Transaction count on SMS? 5. What is Across the Counter Service? 6. How to register e-Service? 7. How to write Sample Web Service in .Net? 8. How to write Sample Web Service in Java?
8	User	The User menu provides the following two links: i. Sign up – This enables the new users (State/Ministry/Other) to sign up on eTaal ii. Login – Registered users can login to eTaal from here. It enables the users to login to eTaal with their registered email id and password
9	Accolades	The menu Accolades provides the following two sub-menus: i. Awards - It provides the updates on the various awards as won by the project ii. News- This section provides the news pertaining to eTaal as published in leading newspapers and from other sources

eTaal National e-Transaction Count

This section of the eTaal Homepage provides the integrated, near real-time aggregated view of e-Transaction statistics for the following:

1. Since starting of the current year
2. Since starting of the current month
3. Total number of e-Services Integrated

The counter provides the e-Transaction count, consolidated on near real-time basis, for all the e-Services integrated with eTaal.

The counter also provides the total number of e-Services integrated, the count of which gets updated every time when a new service is approved and integrated on eTaal.

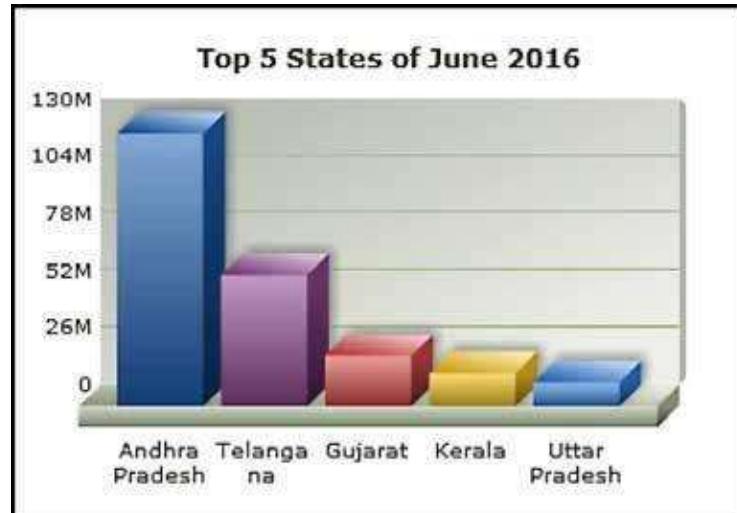

The screenshot of the same is attached as below:

The homepage of eTaal displays the names of Top 5 Projects and States/UTs on the basis of the monthly e-transaction count. The details of the following are displayed as a moving slider updated on monthly basis:

- Top 5 States of Month 2016
- Top 5 Central Projects of Month 2016
- Top 5 Standard Services of Month 2016
- Top 5 Central MMPs of Month 2016
- Top 5 State MMPs of Month 2016
- Top 2 Union Territories of Month 2016

The homepage also displays the graphical view under each of the above data as a moving slider updated on monthly basis.

Just below the details of Top 5 Projects and States/UTs on the basis of the monthly e-transaction count, the section of homepage provides the description of eTaal as below:

eTaal is a web portal for dissemination of e-Transactions statistics of National and State level e-Governance Projects including Mission Mode Projects. It receives transaction statistics from web based applications periodically on near real time basis. eTaal presents quick analysis of transaction counts in tabular and graphical form to give quick view of transactions done by various e-Governance projects.

Downloads

eTaal User & Technical Document

eTaal Brochure

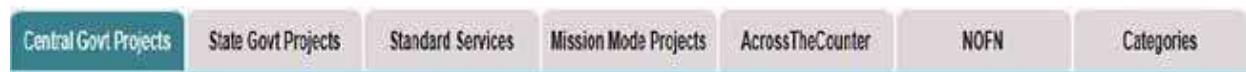

Android App

The downloads section on eTaal Homepage provides links to download the following User documents:

- i. eTaal User & Technical document
- ii. eTaal Brochure
- iii. Android App

5. e-Transactions View: Menu Tab

5.1 TABS

Various types of e-Transactions are displayed in each tab, ‘Central govt. Projects’ being the default option displaying total number of transactions between two user-defined dates (From date and To date). By default, display is in tabular format which can be changed to Bar Chart and Pie Chart by the user.

1.	Central Govt Projects	This tab enables the user to view e-Transaction count of all Central Govt. Projects.
2.	State govt Projects	This tab enables the user to view e-Transaction count of State Govt. Projects.
3.	Standard Services	This tab enables the user to view Standard Service wise- Transaction counts.
4.	Mission Mode Projects	This tab enables the user to view e-Transaction count of various MMPs.
5.	Across The Counter	This tab enables the user to view e-Transaction count of services delivered Across the counter.
6.	NOFN	This tab enables user to view e-Transaction count of services delivered on National Optical Fibre Network (NOFN).
7.	Categories	This tab enables the user to view Category-wise e-Transaction count.

5.2 DATE WISE VIEW

- Select required tab from the above mentioned tabs under the “e-Transactions view” menu tab.

Type From-Date & To-Date in the text boxes or select dates from calendar (by clicking on calendar icon).

- Select the display type between Tabular data, Bar Chart and Pie Chart
- Click Submit button.

5.3 CENTRAL GOVT. PROJECTS

SI #	Central Govt. Projects	No. of e-Transactions
1.	Agriculture	37,12,37,316
2.	Central Public Works Department (CPWD)	7,93,461
3.	Co-operative Banks	60,04,611
4.	CSC	4,29,40,672
5.	Dept. of Administrative Reforms and Public Grievances (DARPO)	52,51,550

State wise View of CSC project

The screenshot shows the eTaal portal interface. At the top, there is a navigation bar with links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, and Select Language. The Department of Electronics & Information Technology logo of the Government of India is also present. Below the navigation bar, the breadcrumb path indicates Central Govt. Projects > CSC > Arunachal Pradesh. A sub-menu bar includes Central Govt Projects, State Govt Projects, Standard Services, Mission Mode Projects, AcrossTheCounter, NOFN, and Categories. A search bar displays "e-Service(s) in Arunachal Pradesh State through CSC" and a date range from "From: 01-01-2016 To: 21-06-2016". To the right of the search bar is a message stating "Total no. of e-Transactions: 1,352". The main content area displays a table of services and their transaction counts:

Sr.	Service Name	No. of e-Transactions
1.	Aadhaar -eKYC	7
2.	CSC Train Ticket	45
3.	DTH Recharge	928
4.	Insurance Policy	1
5.	Insurance Policy Renewal	1
6.	LIC Premium	26
7.	Mobile Recharge	775
8.	NIELIT Fee Payment & Registration	2
9.	Pan Card Application	47
10.	PF RDA	1
11.	RAP Registration	1
12.	SBI Life Insurance	7
13.	UID - Eprint	107
Total e-Transactions		1,352

Below the table, there are filters for "From" (01-01-2016) and "To" (21-06-2016), a "Display type" dropdown set to "Tabular Data", and a "Submit" button. Logos for Digital India, National Informatics Centre, and National e-Governance Plan are visible at the bottom of the page.

34	Uttar Pradesh	27,27,83,619	469.3
35	Uttarakhand	18,72,142	185.1
36	West Bengal	4,24,10,687	464.3
Total e-Transactions		2,42,17,89,058	

This tab enables the user to view e-Transaction data related to State govt. projects.

- The user can change time period for displaying data by changing From date and To date and clicking on Submit button.
- Same data can be viewed in bar chart and pie chart, by selecting display-type in the drop-down list provided below the chart.
- Each state can be clicked to further drill-down for details.

5.4.1 Drilled-down State Govt. Projects (Standard Service Wise)

Each state can be drilled down to get e-transaction count of standard services. Following screenshot shows e-Transactions for the state of Andhra Pradesh, as an example:

The screenshot displays the eTaal platform interface for Andhra Pradesh. At the top, the eTaal logo is visible along with the Ministry of Communications & Information Technology, Government of India seal. The navigation bar includes links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, Select Language, and Categories.

The main content area shows a table titled "Standard Service(s) of Andhra Pradesh" from 01-01-2016 to 25-06-2016. The table has two columns: "Standard Services" and "No. of e-Transactions". The total number of e-Transactions is 73,74,02,933. The data is as follows:

SL#	Standard Services	No. of e-Transactions
1	Certificates	84,26,119
2	Licenses and Permits	625
3	Land Revenue	67,57,435
4	Commercial Tax	1,44,43,880
5	Utility Services and Bill Payment	72,22,830
6	Social Welfare & Pension	123
7	Urban Development including Municipality Services	2,538
8	Passport & Visa Services	1,384
9	State Specific Services	33,665
10	Other Services	8,76,537
11	Grievance	22,72,168
12	Property Registration & House Tax	318
13	Health	1,90,492
14	Rural Development	66,90,94,062
15	Employment	2
16	Industry and Commerce	4,093
17	Transport	12,13,060
18	Education	66,048
19	Public Distribution System	5,11,400
20	Agriculture & Allied	155
21	Election	2,41,52,048
22	Police	1,38,431
	Total e-Transactions	73,74,02,933

Below the table, there are filters for "From" (01-01-2016 to 25-06-2016) and "To" (21-05-2016 to 25-06-2016), a "Display Type" dropdown set to "Tabular Data", and a "Submit" button. Logos for Digital India, NIC National Informatics Centre, and National e-Governance Plan are present at the bottom.

- Same data can be viewed in bar chart as well as pie chart, by selecting display Type in the drop-down list provided below the chart.
- Each standard service can be clicked to further drill-down for details.

5.4.2 Drilled-down Standard Services under State Govt. Projects

Each state can be drilled down to get e-transaction count of standard services. Following screenshot shows e-Transactions under the Commercial Tax Standard service for the state of Andhra Pradesh, as an example:

The screenshot displays the eTaal platform interface for the Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India. The top navigation bar includes links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, Select Language, and a search bar.

The main content area shows the following details:

- Service(s) of Commercial Tax under Andhra Pradesh:** From: 01-01-2016 To: 25-06-2016
- Total no. of e-Transactions:** 1,44,43,980
- Table of e-Transactions:**

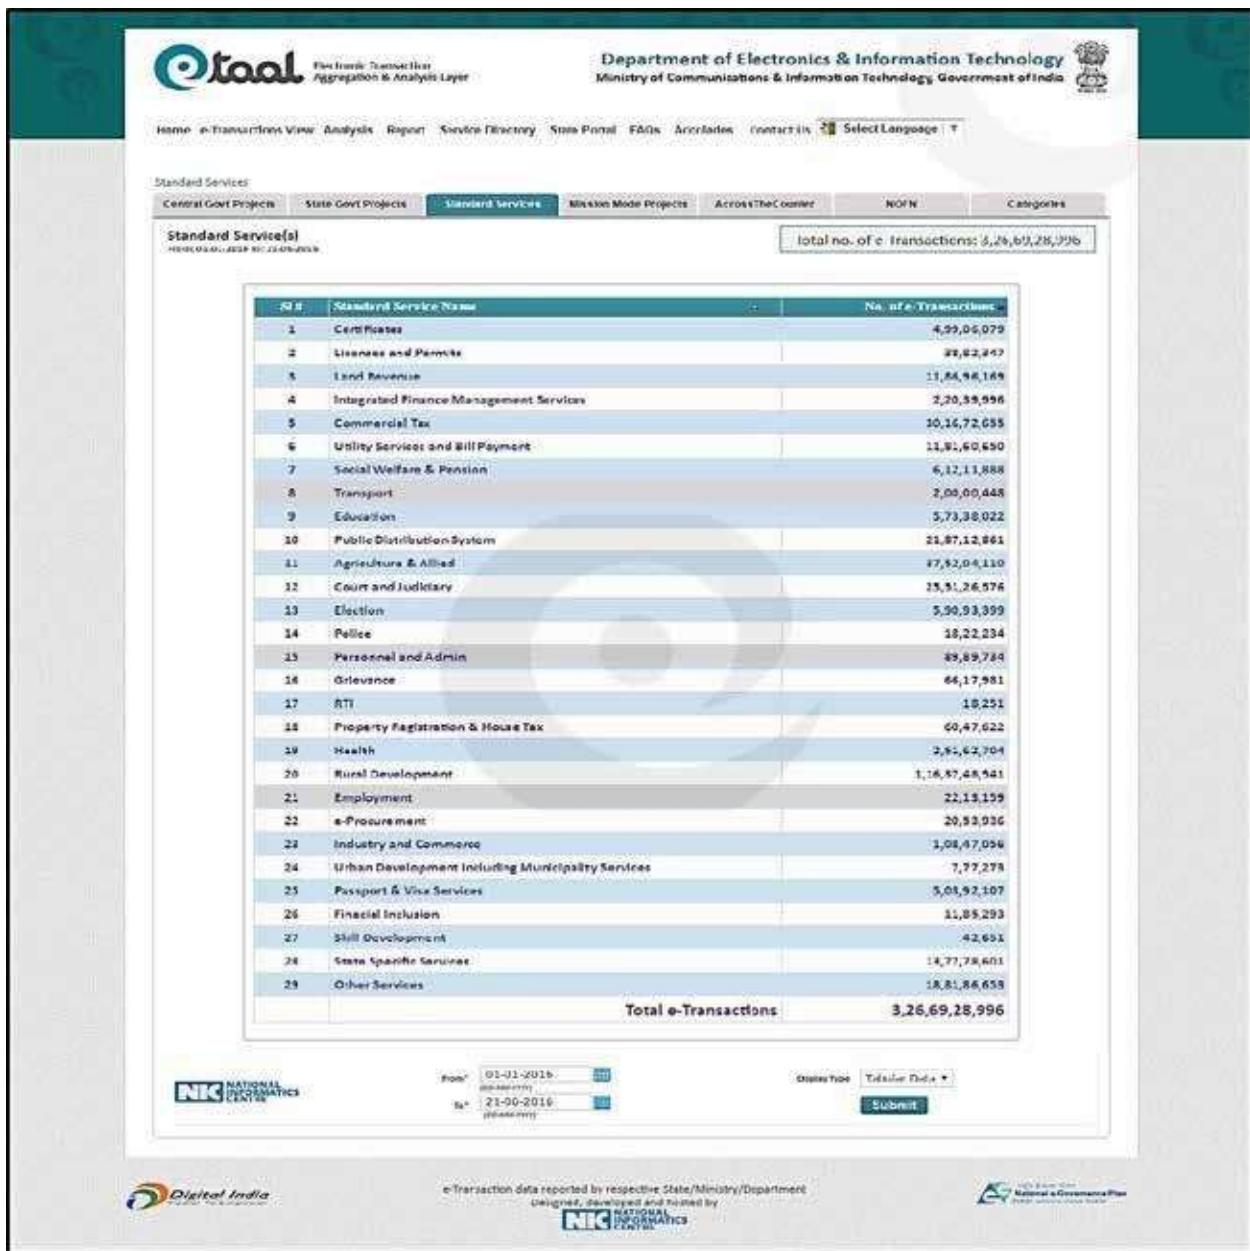

Sl #	Service Name	No. of e-Transactions	Last Updated On
1	Online Registration of Business Firms	3,994	21 Jun 2016
2	Online Waybill Utilisation Submission	596	21 Jun 2016
3	Sales Tax Reimbursement	217	18 Jun 2016
4	Tax Collection (No Data - With/Without Tax N	795	21 Jun 2016
5	VAT/TOT Collection	1,44,38,978	20 Jun 2016
Total e-Transactions		1,44,43,980	

- Filter Options:** From* (01-01-2016 [DD-MM-YYYY]), To* (25-06-2016 [DD-MM-YYYY]), Display Type (Tabular Data), and a Submit button.
- Logos and Logos:** NIC (National Informatics Centre), Digital India, and National e-Governance Plan.

- Same data can be viewed in bar chart as well as pie chart, by selecting display Type in the drop-down list provided below the chart.
- Each standard service can be clicked to further drill-down for details.

5.5 STANDARD SERVICES

This menu option displays consolidated count of e-Transaction for the Standard services. It shows consolidated e-Transactions count pertaining to both Central and State projects. The user can further drill down to see “State-Wise details of the selected Standard Service”. Following screenshot shows Standard Services.

The screenshot shows the eTaal Standard Services dashboard. At the top, there is a navigation bar with links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Announces, Contact Us, Select Language, and Help. The main content area has tabs for Standard Services, Central Govt Projects, State Govt Projects, Mission Mode Projects, Across The Country, NOD/N, and Categories. The Standard Services tab is active. A table lists 29 standard services with their respective transaction counts. The total number of e-transactions is 3,26,69,28,996. Below the table, there is a date range selector from 01-01-2016 to 21-09-2016, a display type dropdown set to 'Table View Data', and a 'Submit' button. Logos for NIC (National Informatics Centre) and Digital India are visible at the bottom.

Sr #	Standard Service Name	No. of e-Transactions

5.6.1 Drilled-down Mission Mode Projects

Mission Mode Projects can be drilled down to get the status of MMPs across various states. Following screenshot shows drilled-down view of e-district MMP.

SIR	State	No. of e-Transactions
1	Chhattisgarh	22,10,795
2	Chandigarh	3,005
3	Haryana	63,04,105
4	Jharkhand	7,75,437
5	Kerala	44,95,889
6	Maharashtra	9,065
7	Meghalaya	4,394
8	Madhya Pradesh	30,37,470
9	Mizoram	12,243
10	Punjab	6,16,078
11	Tamil Nadu	40,93,313
12	Tripura	55,570
13	Uttarakhand	3,85,383
14	Uttar Pradesh	2,62,98,733
15	West Bengal	53,382
Total e-Transactions		4,83,57,062

- Same data can be viewed in bar chart and pie chart, by selecting display-type in the drop-down list provided below the chart.
- We can change time period for displaying data by changing From date and To date and clicking on Submit button.

The screenshot shows the eTaal portal interface. At the top, there is a header with the eTaal logo, the Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India, and a Select Language dropdown. Below the header, the URL is Mission Mode Projects > e-District > Haryana. A navigation bar includes links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, and a language selector. The main content area displays a table titled "Standard Service(s)" with data from 01-01-2016 to 21-06-2016. The table shows the following data:

SL #	Standard Service Name	No. of e-Transactions
1	Land Revenue	2,18,495
2	Utility Services and Bill Payment	52,78,774
3	State Specific Services	3,57,239
4	Certificates	4,49,996
5	Grievance	501
	Total e-Transactions	63,04,105

Below the table, there are date range filters (From: 01-01-2016 to 21-06-2016), a display type selector (Tabular Data), and a Submit button. Logos for Digital India and NIC (National Informatics Centre) are visible at the bottom.

Standard Service-wise Details of Selected state under Mission Mode Projects

The screenshot shows the eTaal portal interface. At the top, there is a header with the eTaal logo, the Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India, and a Select Language dropdown. Below the header, the URL is Mission Mode Projects > e-District > Haryana > Utility Services and Bill Payment. A navigation bar includes links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, and a language selector. The main content area displays a table titled "Service(s) of Haryana under eDistrict" with data from 01-01-2016 to 21-06-2016. The table shows the following data:

SL #	Service Name	No. of e-Transactions	Last Updated On
1	New Sewer Connection	74,464	05 Jun 2016
2	New Water Connection	42,830	05 Jun 2016
3	Receipts of Bill Payment	51,61,480	11 Jun 2016
	Total e-Transactions	52,78,774	

Below the table, there are date range filters (From: 01-01-2016 to 21-06-2016), a display type selector (Tabular Data), and a Submit button. Logos for Digital India and NIC (National Informatics Centre) are visible at the bottom.

5.7.1. Drilled-down Across the Counter Services

Across the counter services can be drilled down to view services under particular state. Following screenshot shows services of goa.

The screenshot shows the eTaal platform interface for Goa. At the top, there's a navigation bar with links like Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, Select Language, and a search bar. Below the navigation is a header for the Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India, featuring the Indian national emblem.

The main content area is titled "AcrossTheCounter > Goa" and "Across the Counter Services provided by Goa". It specifies the date range from 01-01-2016 to 21-06-2016 and shows a total of 2,77,738 e-Transactions. A table lists seven services:

SIR	Service Name	No. of e-Transactions	Last Updated On
1	Caste e-Services North	3,818	20 Jun 2016
2	Commercial Tax Return	1,39,176	18 Jun 2016
3	Divergence e-Services North	1,491	20 Jun 2016
4	Income e-Services North	65	10 Jun 2016
5	Online Payment of Commercial Tax	3,683	18 Jun 2016
6	Residence e-Services North	26,201	20 Jun 2016
7	Statutory forms of Commercial Tax	1,03,304	18 Jun 2016
Total e-Transactions		2,77,738	

Below the table, there are filters for "From" (01-01-2016) and "To" (21-06-2016), a "Display Type" dropdown set to "Tabular Data", and a "Submit" button. Logos for Digital India and NIC (National Informatics Centre) are visible at the bottom.

- Same data can be viewed in bar chart and pie chart, by selecting display-type in the drop-down list provided below the chart.
- The user can change time period for displaying data by changing From date and To date and clicking on Submit button.

5.8 NATIONAL OPTICAL FIBRE NETWORK (NOFN)

It includes e-Services under National Optical Fiber Network (NOFN). It provides State wise, District wise, Block wise and Services wise e-transaction count of e-Services. Following screenshot shows State wise e-transaction count:

The screenshot shows the eTaal NOFN Services page. At the top, there is a navigation bar with links: Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, Select Language, and a search bar. Below the navigation bar, there is a header for the Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India, featuring the Indian national emblem.

The main content area is titled "NOFN Services". It displays a table showing the number of e-transactions for three states: Andhra Pradesh, Rajasthan, and Tripura. The total number of e-transactions is 40,633.

Sr. No.	State Name	No. of e-Transactions
1	Andhra Pradesh	5,908
2	Rajasthan	32,592
3	Tripura	2,133
Total e-Transactions		40,633

Below the table, there are filters for "From" (01-01-2015) and "To" (21-06-2015) dates, a "Display Type" dropdown set to "Tabular Data", and a "Submit" button. Logos for Digital India and NIN-C are visible at the bottom left, and the Ministry of Communications & Information Technology logo is at the bottom right.

State wise view of e-Services Transaction count under NOFN

- Same data can be viewed in bar chart and pie chart, by selecting display-type in the drop-down list provided below the chart.
- The user can change time period for displaying data by changing From date and To date and clicking on Submit button.
- It can be clicked to further drill-down for details.

5.8.1 Drilled-down view of NOFN

User can drill down states providing e-Services through NOFN to view district wise transactions.

The screenshot shows the eTaal NOFN Services interface for Andhra Pradesh. At the top, there's a navigation bar with links like Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, Select Language, and a search bar. Below the navigation is a breadcrumb trail: NOFN Services > Andhra Pradesh. The main content area displays a table titled "District(s) of Andhra Pradesh State providing e-Services through NOFN" with a date range from 05-01-2016 to 25-06-2016. The table has one row showing Visakhapatnam with 5,908 e-Transactions. A summary below the table shows "Total e-Transactions" as 5,908. At the bottom of the page, there are logos for Digital India, NIK Informatics Centre, and the National e-Governance Plan, along with a note about e-Transaction data being reported by respective State/Ministry/Department.

Sr#	District Name	No. of e-Transactions
1	Visakhapatnam	5,908
		Total e-Transactions
		5,908

District wise view of e-Services Transaction count under NOFN

- Same data can be viewed in bar chart and pie chart, by selecting display-type in the drop-down list provided below the chart.
- The user can change time period for displaying data by changing From date and To date and clicking on Submit button.
- It can be clicked to further drill-down for details.

User can drill down districts providing e-Services through NOFN to view Block wise transactions.

The screenshot shows the eTaal platform interface. At the top, there is a navigation bar with links: Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, and Select Language. The Department of Electronics & Information Technology logo of the Government of India is also present. Below the navigation bar, the URL indicates the user is viewing NOFN Services for Andhra Pradesh, specifically for Visakhapatnam. A sub-navigation bar includes: Central Govt Projects, State Govt Projects, Standard Services, Mission Mode Projects, AcrossTheCounter, NOFN (which is highlighted in blue), and Categories. A message box states: "Block(s) of Visakhapatnam District in Andhra Pradesh State providing e-Services through NOFN From: 01-01-2014 To: 21-06-2016" and "Total no. of e-Transactions: 5,908". The main content area displays a table titled "Block(s) of Visakhapatnam District in Andhra Pradesh State providing e-Services through NOFN". The table has columns: SIR#, Block Name, and No. of e-Transactions. It shows one entry: "1 Paravada 5,908". Below the table, it says "Total e-Transactions 5,908". At the bottom of the page, there are two date pickers: "From" (01-01-2014) and "To" (21-06-2016). There are also buttons for "Display type" (Table or Dot) and "Submit". Logos for Digital India and NIC (National Informatics Centre) are at the bottom left, and the National e-Governance Plan logo is at the bottom right. A footer note states: "e-Transaction data reported by respective State/Ministry/Department. Designed, developed and hosted by NIC".

Drilled-down view of category B service “Utility Bill payments”

Categories of services can be further drilled down to view services under the particular category. Following screenshot shows drilled-down view of the services under category 'B' for the Chandigarh State.

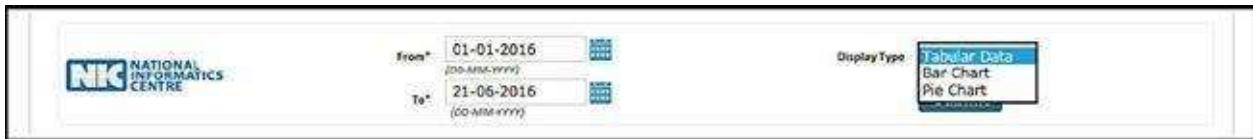

The screenshot shows the eTaal website interface. At the top, there is a navigation bar with links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, Select Language, and Categories. The main content area is titled "Service(s) under Category B (Utility Bill payments) of Chandigarh" and specifies the date range from 01-01-2016 to 21-06-2016. A total of 9,15,640 e-Transactions were recorded. Below this, a table lists six services with their respective transaction counts and last update dates:

SL #	Service Name	No. of e-Transactions	Last Updated On
1	Payment Of Electricity Bill	4,59,605	21 Jun 2016
2	BSNL Payment	73,589	21 Jun 2016
3	Water Bill Payment	8,18,261	21 Jun 2016
4	HFCL Telephone Bill	38,630	21 Jun 2016
5	Airtel Telephone Bill	21,375	21 Jun 2016
6	Airtel Landline	9,200	21 Jun 2016
Total e-Transactions		9,15,640	

Below the table, there is a search/filter section with fields for "From" (01-01-2016) and "To" (21-06-2016), a "Display Type" dropdown set to "Tabular Data", and a "Submit" button. Logos for Digital India, NIC, and National e-Governance Plan are visible at the bottom of the page.

- Same data can be viewed in bar chart as well as pie chart, by selecting display-type in the drop-down list provided below the chart.

5.10 OTHER GRAPHICAL VIEWS

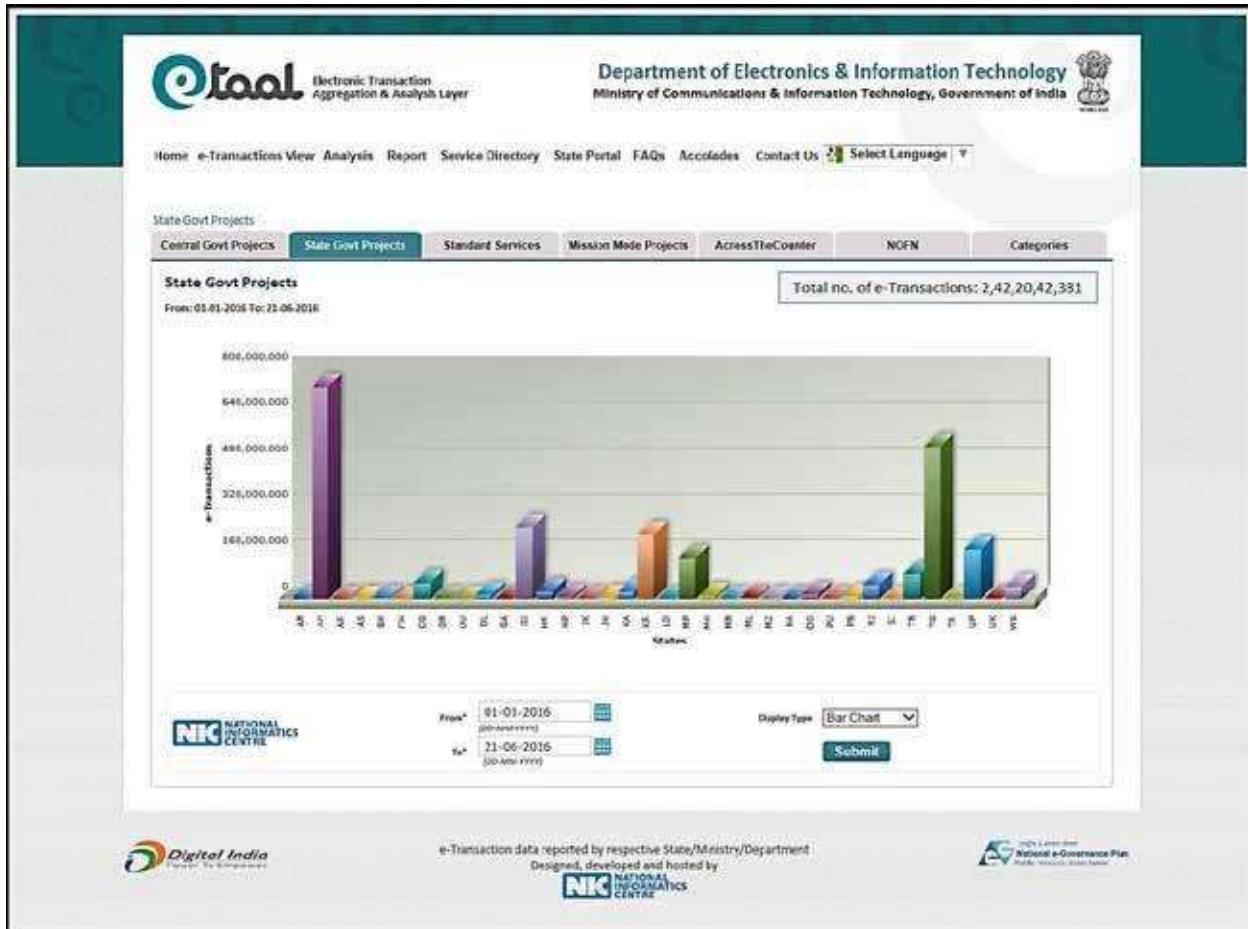

In addition to Tabular view, the User has an option to view the e-Transactions count data under following types of graphical view:

1. Bar Chart
2. Pie Chart

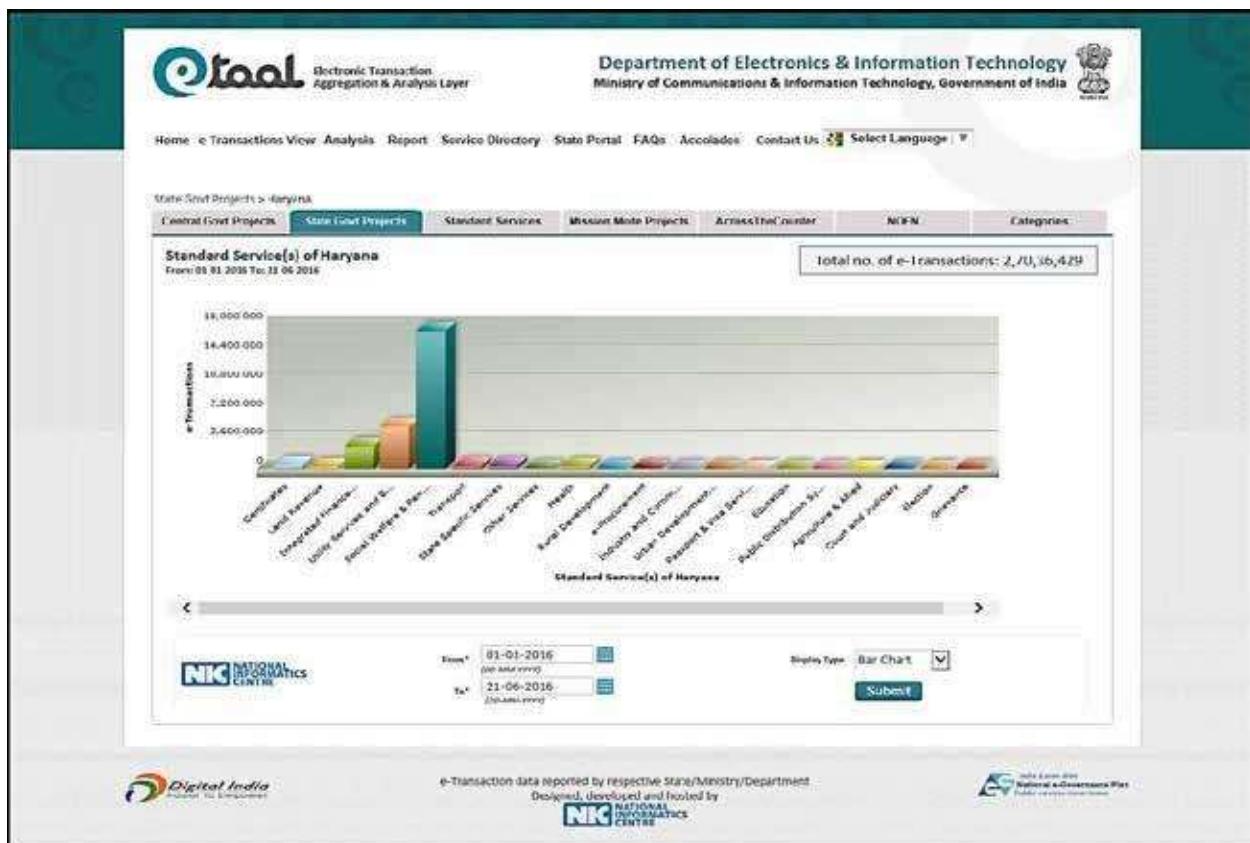

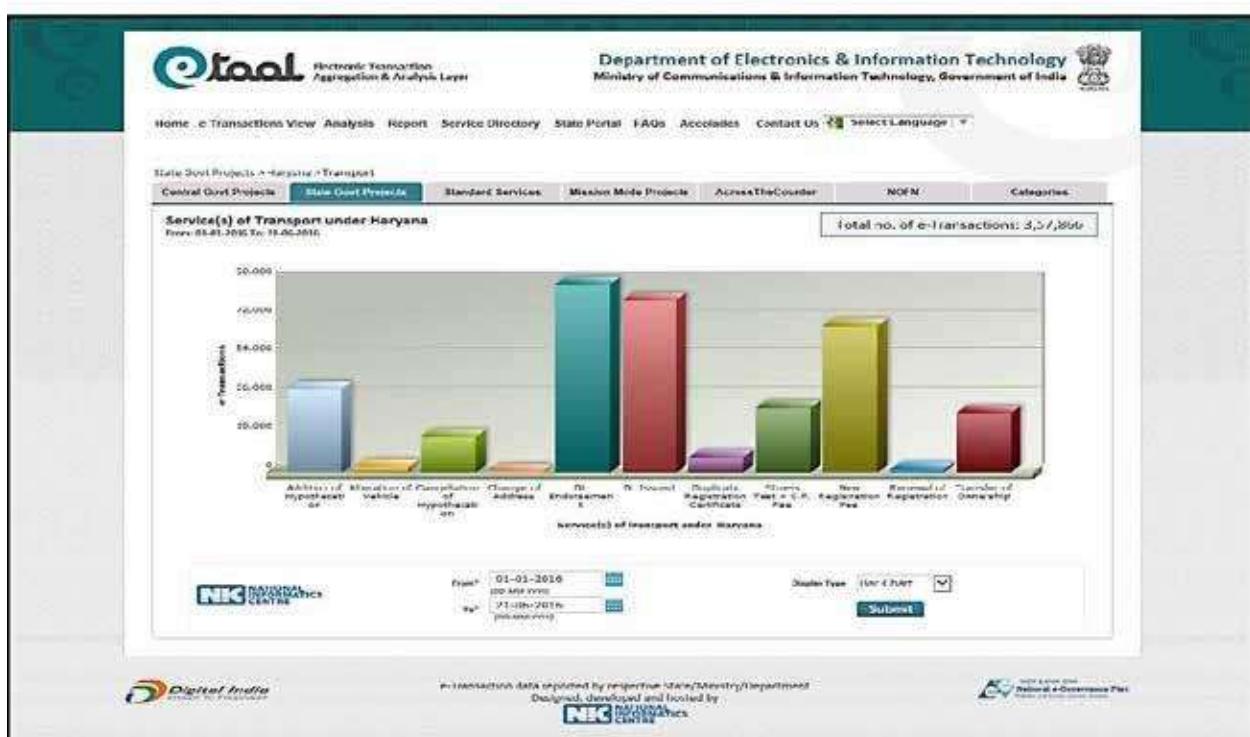

This graphical view is available under all the following categories of e-Transactions view as explained above in details:

1. Central Govt Projects
2. State govt Projects
3. Standard Services
4. Mission Mode Projects
5. Across The Counter
6. NOFN
7. Categories

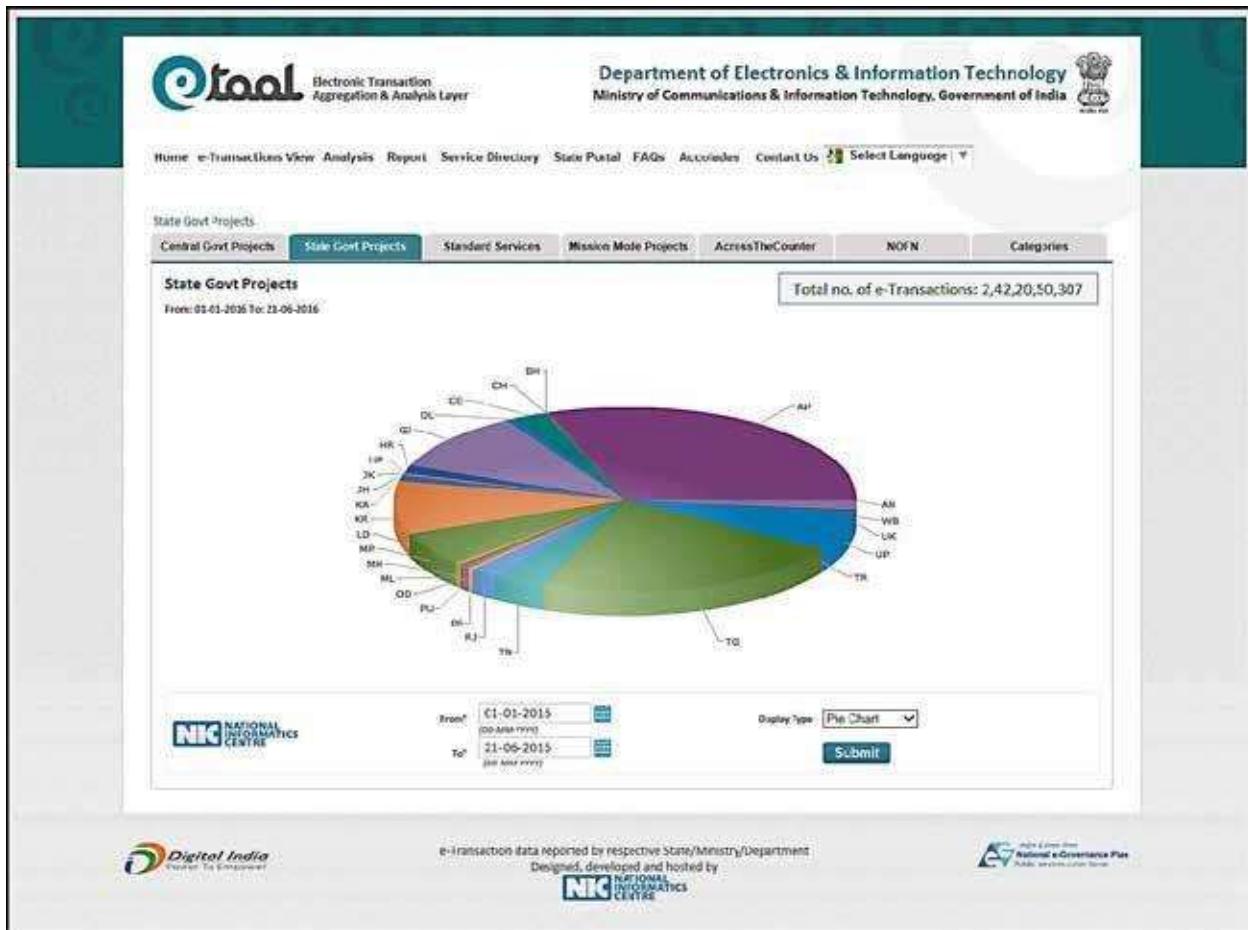

Bar Chart: Following screenshot illustrates the graphical representation of e-transaction count for State govt. Projects in Bar Chart form.

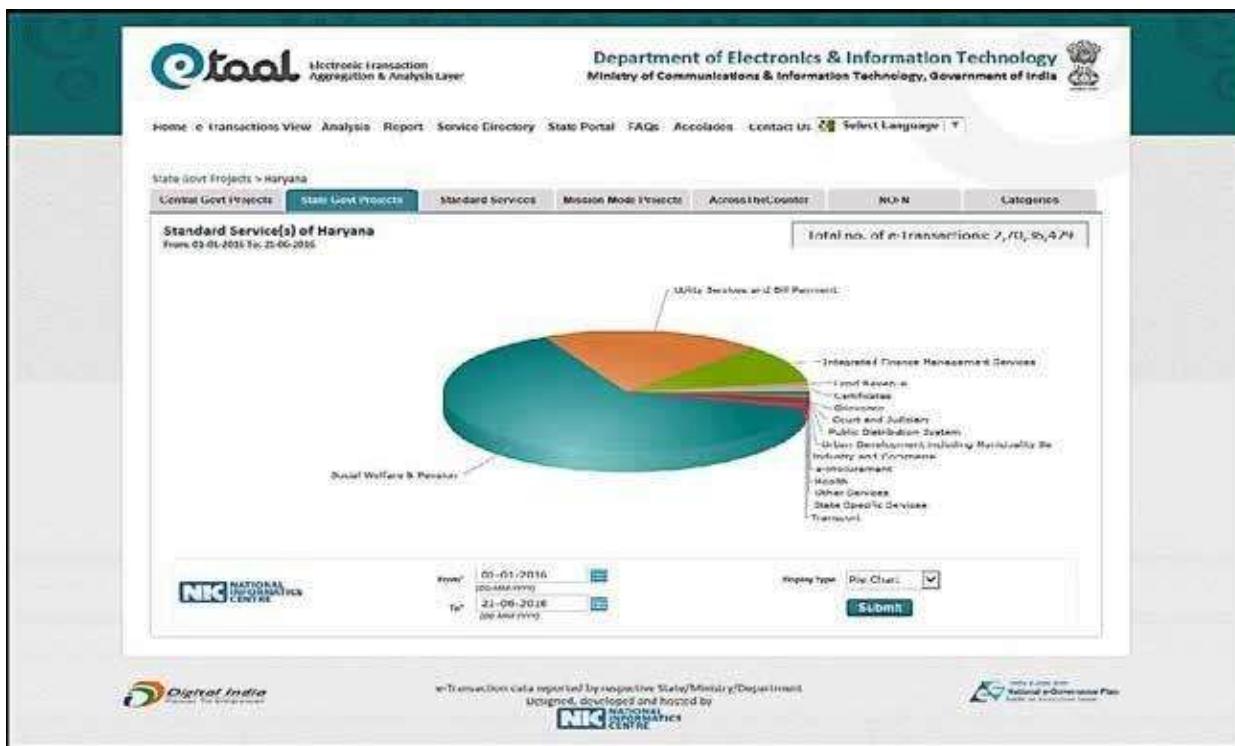

- Each 3D column bar depicts states identified by different color.
- Height of each column bar shows total transactions occurred in that State, during the period specified by user.
- Each state can be clicked to further drill-down for details.

NATIONAL INFORMATICS CENTRE

Digital India Power to Empower  e-Transaction data reported by respective State/Ministry/Department
Designed, developed and hosted by  NATIONAL INFORMATICS CENTRE 

Drilled-down Time-line Analysis to view Standard Service Wise Transactions

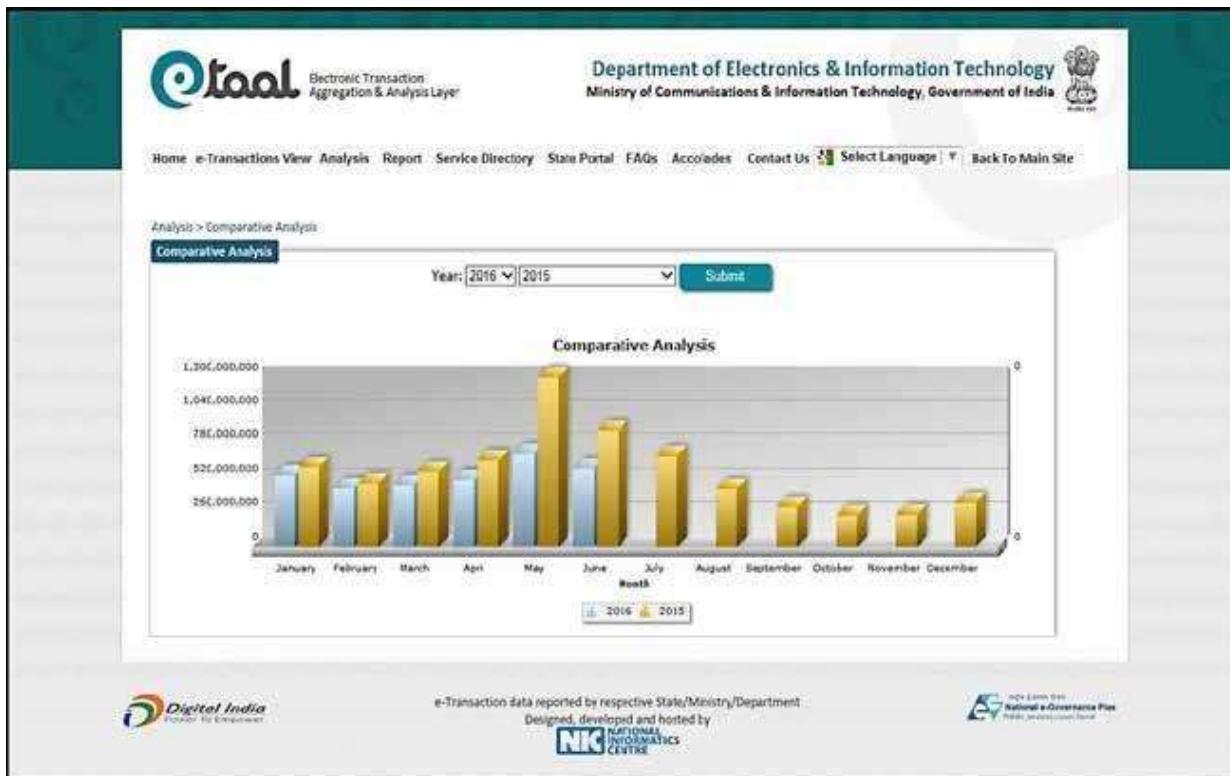

6.2 Comparative Analysis

This menu item enables the user to perform an analysis of the variation in e-Transaction count over a period of time e.g. number of e-Transactions in the current year as compared to the number of e-Transactions recorded in a selected year. Or comparison between number of e-transactions recorded in a particular month this year with respect to the number of e-Transactions recorded in the specified year for the same month.

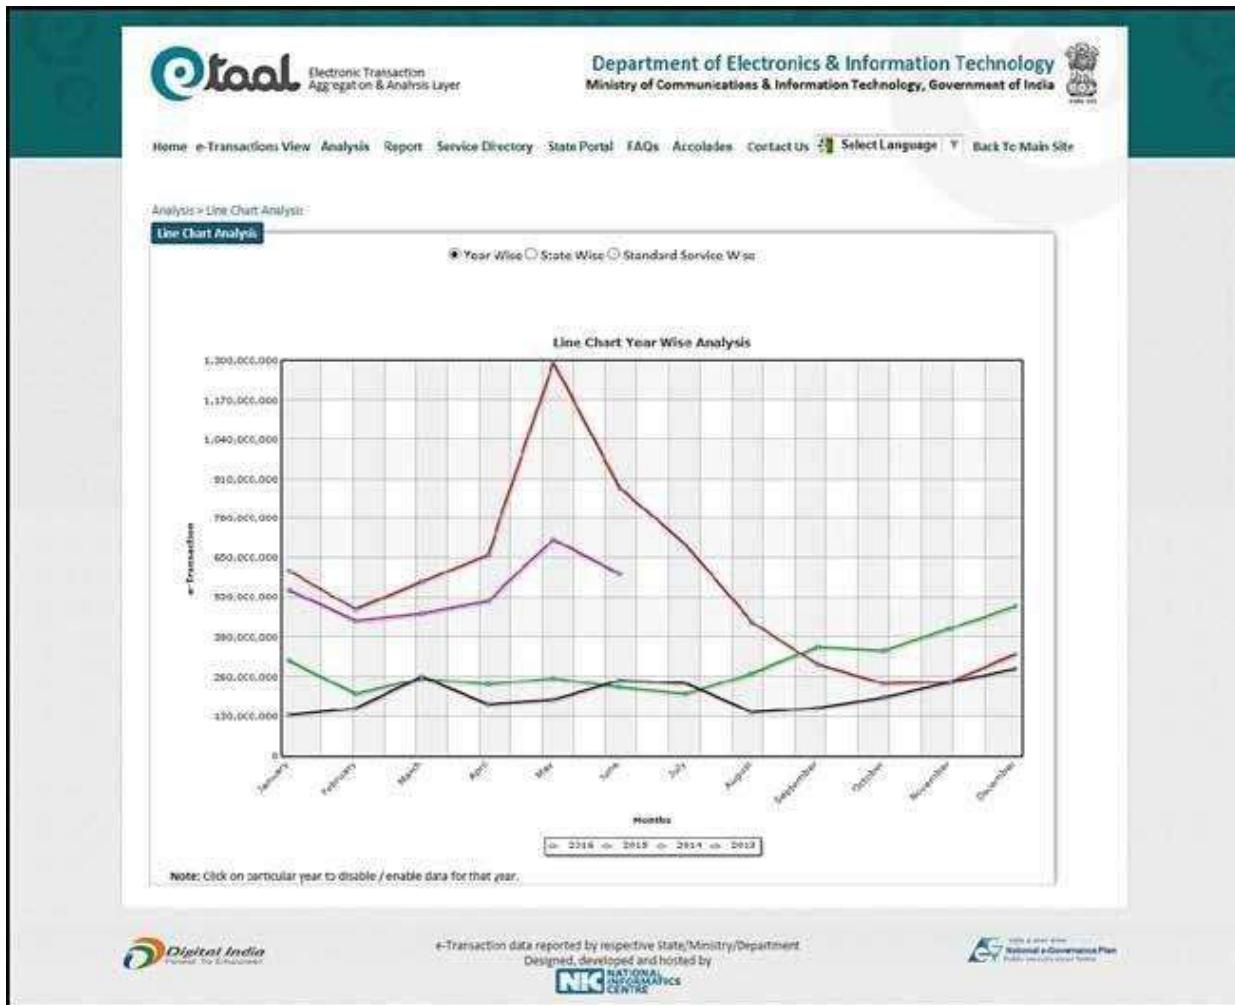

The above graph shows the variation in e-Transactions recorded over months of the year 2016.

The user may perform an analysis of number of e-Transactions recorded between two different years (Month Wise) by selecting the years amongst which the comparison is to be made through the drop down lists.

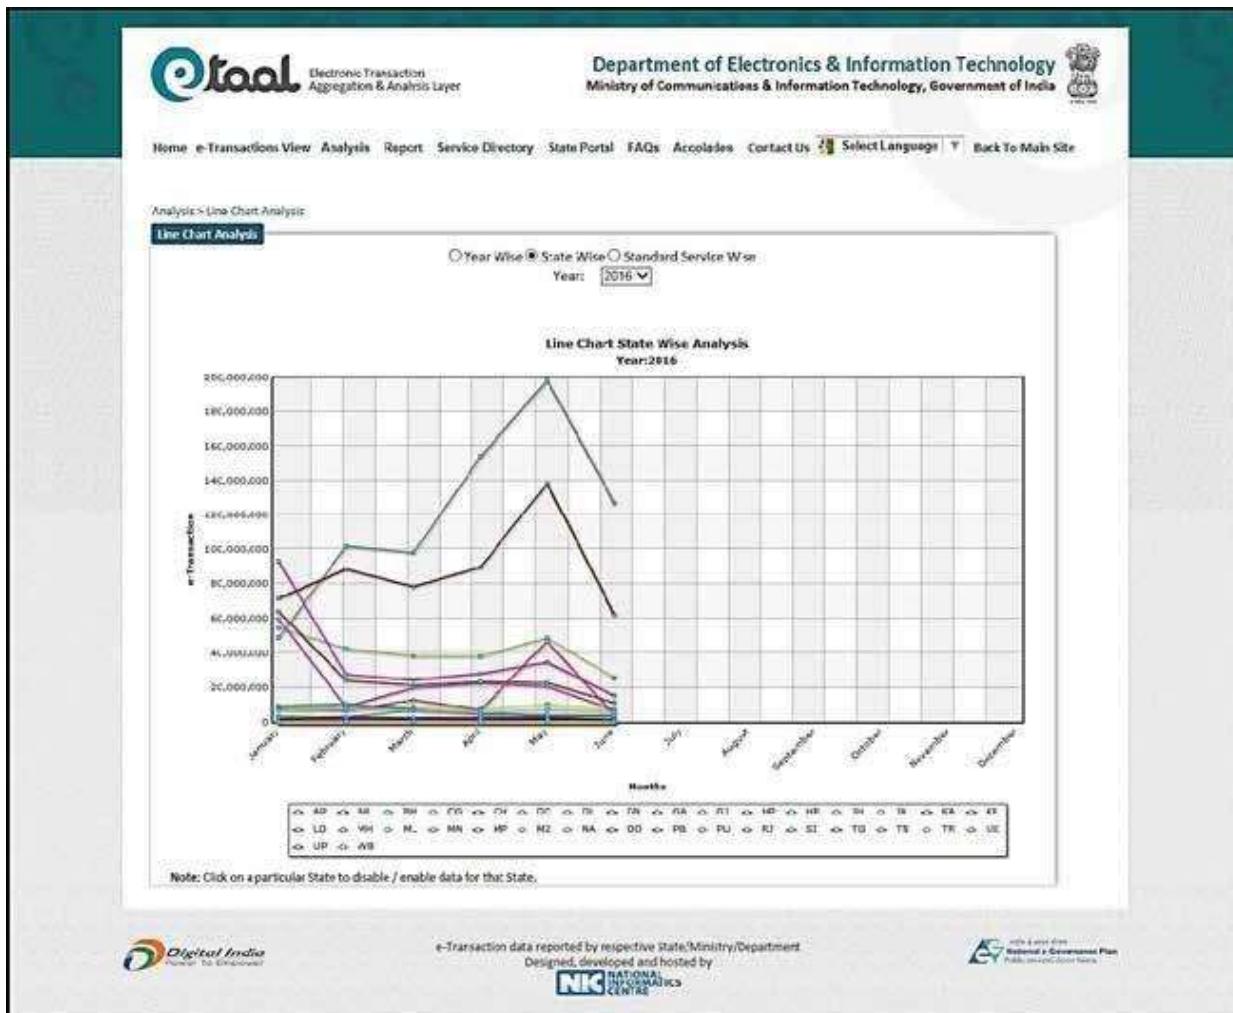

6.3 Line Chart Analysis

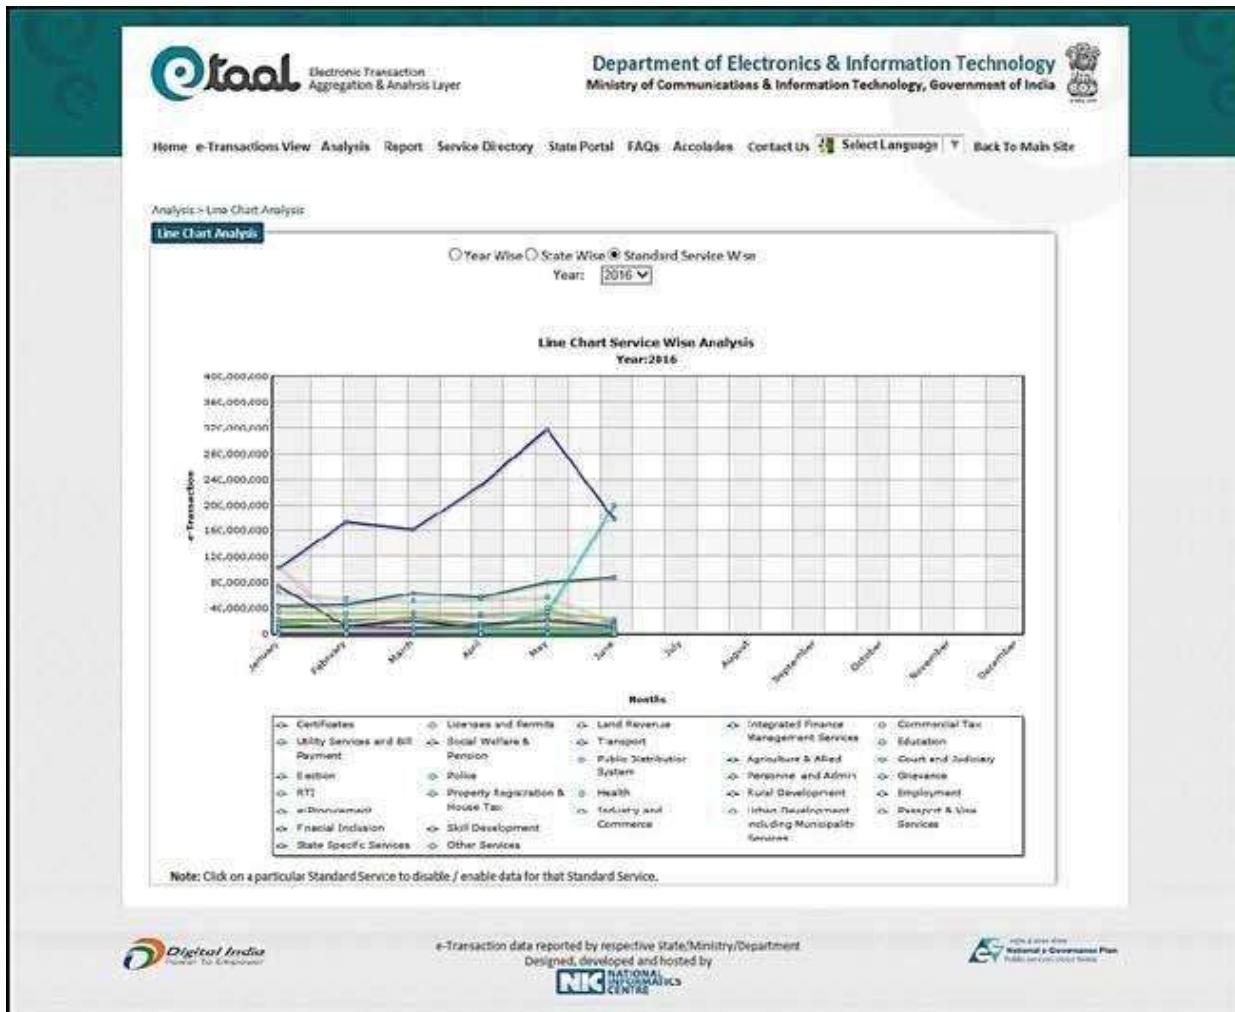

User can perform Year Wise, State Wise and Service Wise analysis of no. of e-Transactions by selecting desired year from the drop down list. Following screenshot shows the Year Wise analysis for the year 2016.

Following screenshot shows the State Wise analysis for the year 2016.

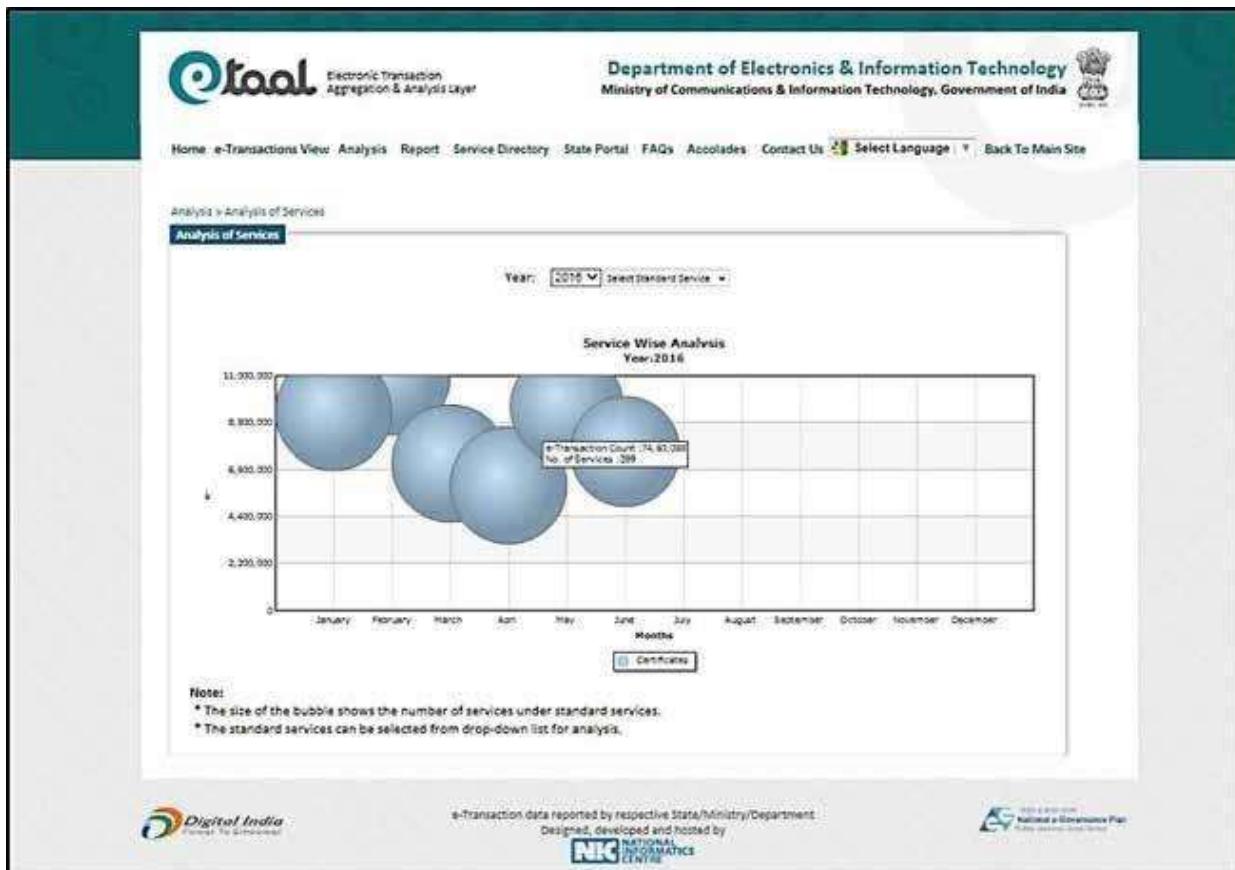

Following screenshot shows the Standard Service Wise analysis for the year 2016.

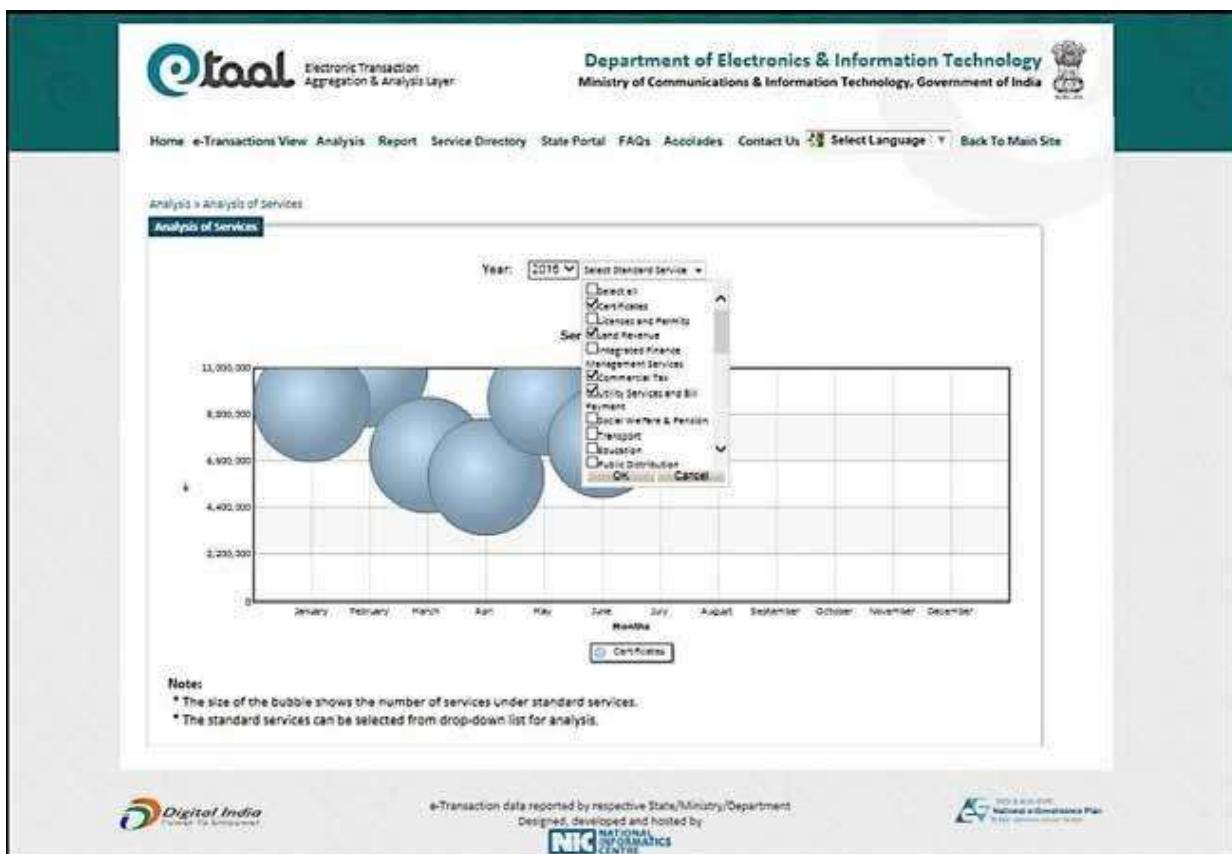

6.4 Analysis of Services

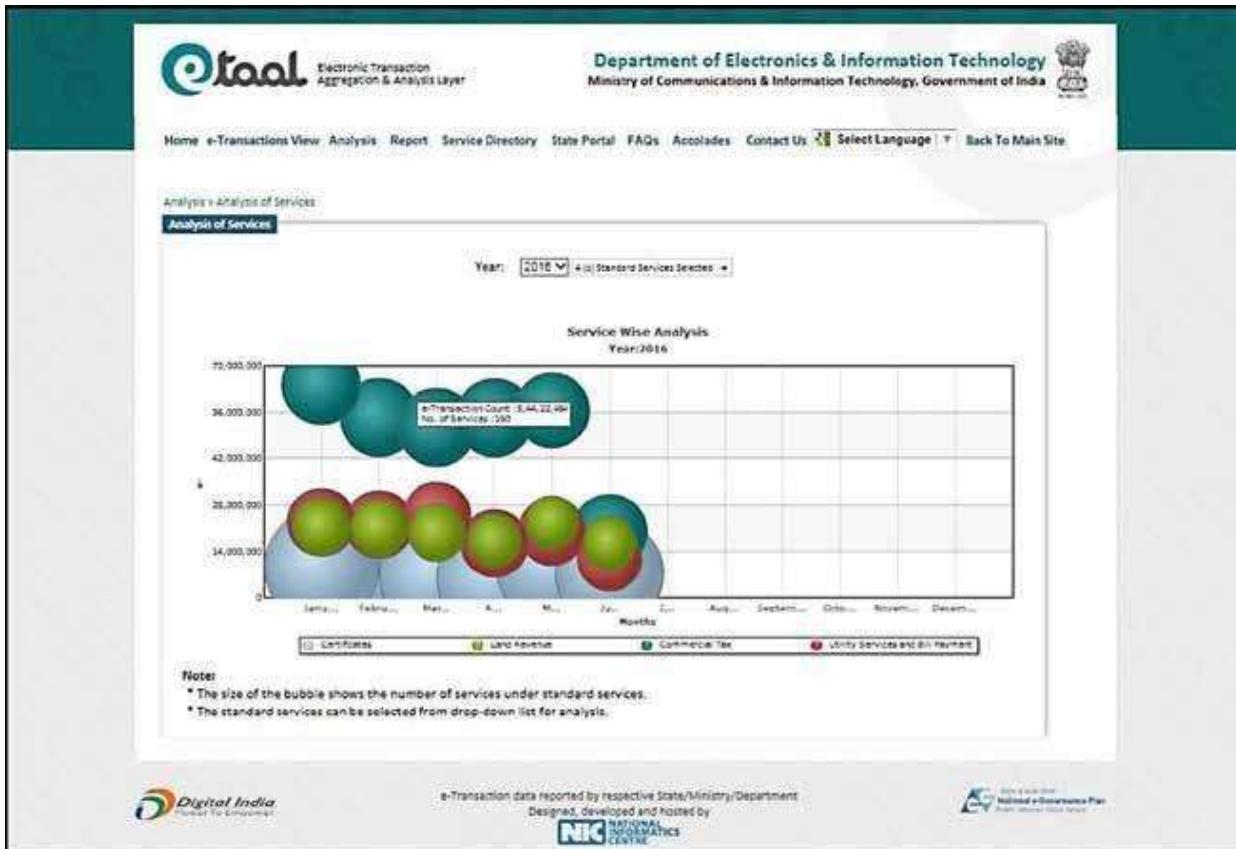

User can perform Service Wise analysis of no. of e-Transactions by selecting desired year from the drop down list. On opening the screen for Analysis of services, the user will see by default the bubble chart/analysis for the Standard Service “Certificate” during the year 2016. Following screenshot shows the Analysis of services for the year 2016 with the default service as “Certificate”.

The User can further select specific services from the drop down menu for the comparison and analysis among specific number/type of services. The size of a bubble displays the total number of projects under a particular standard service. The screenshot for the same is attached as below:

On selection of the multiple services from the drop down the data for only the selected services would be displayed as bubble chart for the analysis. The reference screenshot is attached below.

7. Report

The screenshot shows the eTaal portal's main dashboard. At the top, there is a navigation bar with links for Home, e-Transactions View, Analysis, Report (which is circled in red), Service Directory, State Portal, FAQs, User, Accolades, Select Language, and Digital India logo.

The main title is "National e-transaction Count". Below it, two large numbers represent transaction counts: "Since 1st Jan, 2016" with a value of "3,27,20,03,038" and "Since 1st Jun, 2016" with a value of "59,79,81,427".

A section titled "Total Number of e-Services Integrated" shows the value "3,020".

Below this, there is a chart titled "Top 5 Central Projects of June 2016" with the following data:

Project	Value
Judiciary	3,27,20,03,038
Agriculture	59,79,81,427
Railway Reservations through IRCTC	3,020
Passport	1,000
Income Tax	1,000

At the bottom of the dashboard, there is a "Downloads" section with links for eTaal User & Technical Document, eTaal Institute, and eTaal App. There is also a footer note: "e-Transaction data reported by respective State/Ministry/Department".

The user can access the following types of reports on eTaal portal:

1. State Wise Transaction Per 1000 Population
2. Central/State Wise Transaction Per Services
3. Category Wise Transaction

7.1 State Wise Transaction Per 1000 Population

This report provides the details of number of e-Transactions captured for per 1000 population of each of the 36 States/UTs as per the format shown in the attached screenshot. The user has the provision to select the date range for the period for which the report needs to be generated.

The screenshot shows the eTaal platform interface. At the top, there is a navigation bar with links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, Select Language, and Back To Main Site. The main title is "State Wise Transaction Per 1000 Population". Below the title, there are two input fields: "From Date" set to 01-01-2016 and "To Date" set to 31-06-2016. A "Generate Report" button is located below these fields. At the bottom of the page, there are logos for Digital India, NIC National Informatics Centre, and the Ministry of Electronics & Information Technology. There is also a note stating "e-Transaction data reported by respective State/Ministry/Department. Designed, developed and hosted by NIC NATIONAL INFORMATICS CENTRE".

7.3 Category Wise Transaction

This report provides the details of number of e-Transactions captured under various categories of e-Services (A,B, C, D, E, F) for the Central and State Projects.

The User has the option to select and generate the report under following two categories:

1. Central Wise Report
2. State Wise Report

The following screenshot provides the search parameters available to Users for the generation of report for Category Wise Transaction for Central and State Projects. The user has the provision to select the date range for the period for which the report needs to be generated.

The screenshot shows the eTaal website interface. At the top, there is a navigation bar with links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, Accolades, Contact Us, Select Language, and Back To Main Site. The main content area is titled 'Category Wise Transaction'. It features two input fields for 'From Date' (01-01-2016) and 'To Date' (21-06-2016). Below these fields are two radio buttons: 'Central Wise Report' (selected) and 'State Wise Report'. A 'Generate Report' button is located below the radio buttons. At the bottom of the page, there are logos for Digital India, National e-Governance Plan, and NIC (National Informatics Centre), along with a note about e-Transaction data being reported by respective State/Ministry/Department and being designed, developed, and hosted by NIC.

8. Service Directory

In order to facilitate the view of services being undertaken across the country, a Service directory has been developed. Service directory helps citizen in finding state level services grouped in a particular standard service. It provides the details of e-Governance application delivering the service such as name of dept., description of service etc., also provides the details of spatial spread for a given service. The user can view the service directory and search for relevant information for the services.

9. State Portal

A personalized portal for states and union territories by the name of “State Portal” is implemented on the eTaal website. It helps citizen in finding state level services grouped in a particular standard service.

The screenshot shows the eTaal dashboard with the following interface elements:

- Header:** eTaal Electronic Transaction Aggregation & Analysis Layer, Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India, Digital India.
- Main Title:** National e-Transaction Count
- Navigation Bar:** Home, e-Transactions View, Analysis, Report, Service Directory, State Portal (circled in red), FAQs, Accolades, Contact Us, Select Language.
- Content Area:**
 - Admin > State Portal:** A grid listing Indian states and union territories:

Andaman and Nicobar	Andhra Pradesh	Arunachal Pradesh	Assam
Bihar	Chhattisgarh	Chandigarh	Delhi and Dus
Delhi	Dadra and Nagar Haveli	Goa	Gujarat
Himachal Pradesh	Haryana	Jharkhand	Jammu and Kashmir
Karnataka	Kerala	Lakshadweep	Maharashtra
Meghalaya	Manipur	Madhya Pradesh	Mizoram
Nagaland	Odisha	Punjab	Puducherry
Rajasthan	Sikkim	Telangana	Tamil Nadu
Tripura	Uttarakhand	Uttar Pradesh	West Bengal
 - Logos:** Digital India, NIC, National e-Governance Plan.
 - Footnote:** e-Transaction data reported by respective State/Ministry/Department.

The link “State Portal” on the eTaal dashboard, allows the users of different states to view the transaction counts. It is internally managed and allows a comparable analysis of the states on the basis of the transaction counts available on eTaal.

This interface contains separate links for all the 36 states and union territories. The link of individual states further redirects the user to the individual state portal from where a user can view the total transaction count and the e-Transaction count of the various standard services integrated with the specific state.

The below screenshot shows the State Portal of Delhi:

The screenshot displays the eTaal portal for Delhi. At the top, the eTaal logo is on the left, and the Department of Electronics & Information Technology logo is on the right. Below the header, there is a navigation bar with links: Home, e-Transactions View, Analysis, Report, Service Directory, FAQs, Accolades, Contact Us, Select Language, and Back To Main Site. The main content area features a large green banner with the title "State e-Transaction Count" and "Delhi". It shows two transaction counts: "Since 1st Jan, 2016" with a value of "1,45,65,026" and "Since 1st Jun, 2016" with a value of "15,05,632". At the bottom of the page, there are logos for Digital India, NIC National Informatics Centre, and National e-Governance Plan.

The User can click on e-Transaction View to further view the drilled down view of Standard Services of delhi

The screenshot shows the "Standard Services" section of the eTaal portal for Delhi. The top navigation bar and header are identical to the previous screenshot. The main content area has a sub-header "Standard Service(s)" and a date range "From 01-01-2016 To 21-06-2016". A box on the right displays "Total no. of e-Transactions: 1,45,65,026". Below this is a table listing 14 standard services with their respective transaction counts:

SL No.	Standard Service Name	No. of e-Transactions
1	e-Procurement	60,711
2	Education	>1
3	Utility Services and Bill Payment	1,06,09,841
4	Passport & Visa Services	83
5	Moral Development	28
6	Social Welfare & President	91
7	Certificates	1,420
8	Industry and Commerce	9,177
9	Commercial Tax	24,43,910
10	Other Services	1,45,847
11	Licenses and Permits	5,44,922
12	Agriculture & Allied	8
13	Health	6,12,195
14	Transport	38,593
Total e-Transactions		1,45,65,026

At the bottom, there are filters for "From Date" (01-01-2016) and "To Date" (21-06-2016), a "Display Type" dropdown set to "Tabular Data", and a "Submit" button. The footer contains logos for Digital India, NIC National Informatics Centre, and National e-Governance Plan, along with a note about transaction data being reported by respective State/Ministry/Department.

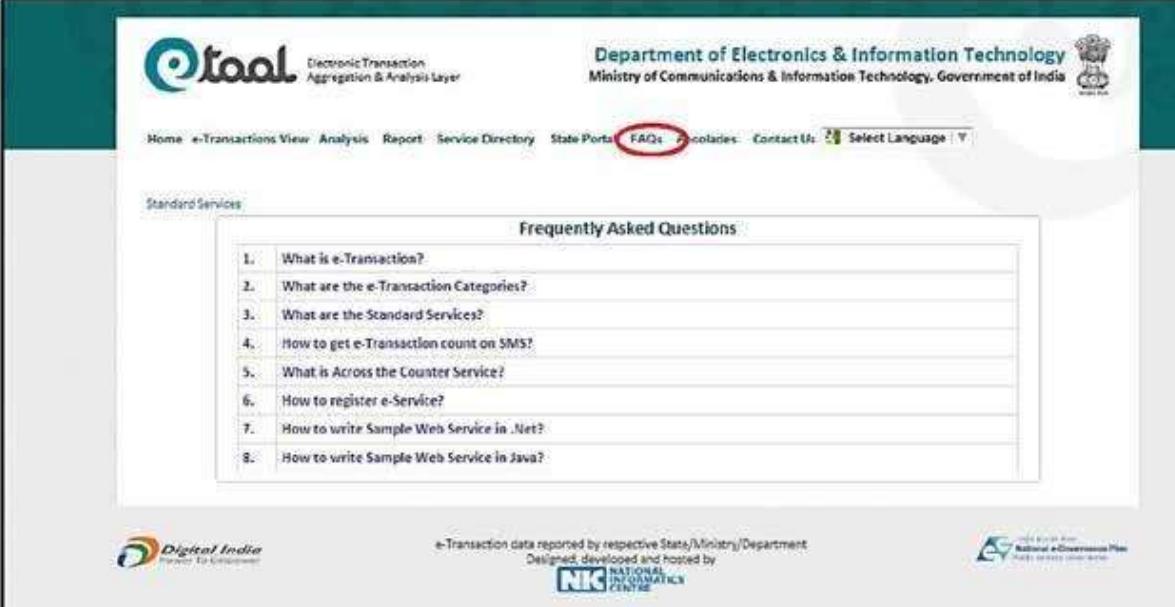

10. FAQs

The “FAQs” Menu on the eTaal homepage provides responses to Users on few of the general queries pertaining to eTaal application.

The screenshots of FAQ section are attached as below:

The screenshot shows the eTaal homepage with a dark green header bar. On the left is the eTaal logo with the text "Electronic Transaction Aggregation & Analysis Layer". To the right is the Ministry of Communications & Information Technology, Government of India logo. The header also includes links for Home, e-Transactions View, Analysis, Report, Service Directory, State Portals, FAQs (circled in red), Accolades, Select Language, and Digital India. Below the header is a large blue banner with the text "National e-Transaction Count".

The screenshot shows the "Frequently Asked Questions" page from the eTaal website. The header is identical to the homepage. The main content area has a title "Frequently Asked Questions" and a numbered list of 8 questions: 1. What is e-Transaction?, 2. What are the e-Transaction Categories?, 3. What are the Standard Services?, 4. How to get e-Transaction count on SMS?, 5. What is Across the Counter Service?, 6. How to register e-Service?, 7. How to write Sample Web Service in .Net?, and 8. How to write Sample Web Service in Java?. At the bottom of the page, there are logos for Digital India, e-Governance, and the National Informatics Centre, along with a note about e-Transaction data being reported by respective States/Ministry/Department and being designed, developed, and hosted by the NIC.

11. User Sign Up and Login

The screenshot shows the eTaal homepage with the 'User' tab circled in red. The page features the eTaal logo, the Ministry of Communications & Information Technology logo, and the Digital India logo.

The screenshot shows the eTaal sign-up form. It includes fields for selecting a state (Sikkim), entering a name, email ID, designation, contact number, and a CAPTCHA code (RYEAW). A note at the bottom states "Note: All fields are mandatory." There is a "Sign Up" button.

The new user needs to sign up on eTaal portal to create the login details before proceeding to the service enrolment page. Once the user has successfully created the login credentials, he may click on the login link as provided under the “User” Tab of eTaal homepage. User Login

The screenshot shows the eTaal Admin Login page. It has three input fields: "Registered Email ID", "Password", and "Enter below code". Below the code field is a CAPTCHA image showing "NZGZX". At the bottom are "Login" and "Forgot Password?" buttons.

12. Service Enrolment

Service Enrolment is reserved for administrator for approving the Project entry, Service entry and Enrolment of web services by owner of the project. This option could be invoked only after login through Admin Login.

A screenshot of the eTaal homepage. The header includes the eTaal logo and the text 'Electronic Transaction Aggregation & Analysis Layer'. To the right is the 'Department of Electronics & Information Technology' logo and the text 'Ministry of Communications & Information Technology, Government of India'. The navigation bar contains links for Home, e-Transactions View, Analysis, Service Enrolment (which is circled in red), Approval, Report, Audit Trails, Service Directory, State Portal, FAQs, Accolades, and Contact Us. Below the navigation bar are dropdown menus for 'Select Language' and 'Central Govt Projects'. A secondary navigation bar at the bottom includes links for Sector/Project Entry, Service Entry, Modify Service, Web Service Enrolment, Mission Mode Projects, AcrossTheCounter, NOFN, and Categories. On the far right of this bar are 'Logout' and 'Change Password' buttons.

12.1 Sector/Project Entry

Entry of the project is done by the owner of the project. The owner needs to specify the Project name along with the person who has requested for the entry of it. Screenshot of the project entry page is shown below:

The screenshot shows the 'Sector/Project Entry' form. At the top, there are radio buttons for 'State', 'Central Projects', and 'others'. A dropdown menu for 'State' is set to '-Select-'. The 'Sector/Project Name' field is empty. The 'Contact Person Name' field contains 'Project Admin', 'Designation' field contains 'Admin', 'Email ID' field contains 'projadmin@nic.in', and 'Contact No.' field contains '9999888811'. A checkbox labeled 'Request for Port Opening' is unchecked. At the bottom of the form are three buttons: 'Save', 'Show List', and 'Clear'.

Once all the details of the person along with the Project name are entered, it can be saved by clicking on the Save Button. Complete list of the projects can be viewed by clicking on the 'Show List' Button. Clear Button is used to clear the details already entered in the current screen. The Approve Button is used to approve the list and save it permanently in the database.

12.2 Service Entry

Entry of service is done by the owner of the project. He/she needs to specify the Service name along with the person who has requested for the creation of it. Screenshot of the service creation page is shown below:

The screenshot shows the 'Service Entry' page of the eTaal system. At the top, there's a header with the eTaal logo, the Ministry of Communications & Information Technology, Government of India, and navigation links like Home, e-Transactions View, Analysis, Service Enrollment, Approval, Report, Service Directory, State Portal, Audit Trail, FAQs, Accolades, and Contact Us. On the right, there are Logout and Change Password buttons.

Service Details:

- Name: Project Admin
- Contact No.: 9999888811
- Designation: Admin
- Email ID: projectadmin@nic.in
- Sector/Project: Select (dropdown)
- Standard Service Name: Select (dropdown)
- Category: Select (dropdown)
- Minor Service Name: Select (dropdown)
- Brief Description: (Please indicate how this service is meeting all the four benchmarks or 'Across Counter') * (Text area)

Note: Brief description should be between 100 to 250 characters.

e-Transaction Benchmark:

- Service is requested through electronic means including mobile devices.
- Database is electronic/digitized.
- Workflow/approval process is electronic.
- Service delivery is electronic.

I, hereby, declare that information provided above is correct to the best of my knowledge.

Save | Show List | Clear

At the bottom, there are logos for Digital India, National Informatics Centre, and the e-Governance Status Report.

Service creation consists of two sub-sections:

- 'Service Reported By and Service details' Section: In this section, details of the person who is reporting the service is entered. The name, designation, contact no. and email id is captured. Also, details of services are entered in following format:
 - Select Project, Category (A, B, C, D, E, F), Major Service (Standard Service), Minor Service (Sub Standard Service).
 - Enter local name of service to be added and brief description of the service.
 - Check whether the service is across counter or mission mode project.
- 'e-Transaction Benchmark' Section: All the benchmark are required to be fulfilled by the e-Service to participate in eTaal which are as follows:
 - Service is requested through electronic means including mobile devices.
 - Workflow/approval process is electronic.
 - Database is electronic/digitized.
 - Service delivery is electronic.

12.3 Modify Service

After the successful creation of service by the owner under the “Service Entry” link as explained above, if required, the owner can modify the service details under the “Modify Service” link of Service Enrolment. The screenshot of the Modify Service screen is shown as below:

Service Details

Service Code:

Sector/Project:

Standard Service Name:

Local/Regional Service Name:

Category:

Miner Service Name:

Brief Description
(Please indicate how this service is meeting all the four benchmarks or 'Across Counter'):
Note: Brief description should contain at least 100 characters.

Is Across Counter:

Service type: Oozc, Ozca, Ozzc

Mission Mode Project:

e-Transaction Benchmark

Service is requested through electronic means including mobile devices.
 Database is electronic/digitized.
 Workflow/approval process is electronic.
 Service delivery is electronic.

I, hereby, declare that information provided above is correct to the best of my knowledge.

Public Sector Initiatives

12.4 Web Service Enrolment

Web service can be registered by owner of the project. He/she needs to register the Web Service along with the details. This module is smart enough to identify and verify the correctness of the input parameter and output parameter.

The screenshot shows the 'Register Web Service' interface. At the top, there are tabs for 'Add Web Reference', 'Add Web URL', and 'Add WCF Reference'. Below these, there are dropdown menus for 'State' (selected) and 'Central Projects' (unchecked). The 'State' dropdown has 'Select...' as its placeholder. The 'Central Projects' dropdown has 'Select...' as its placeholder. There are also dropdowns for 'Sector/Project Name' and 'Web Service URI'. Below these are input fields for 'Web Service Name' and 'URL of Application'. A 'Keywords' input field is also present. To the right of the form, a yellow 'Note' box contains the text: 'Please open the port of web service from IP:164.103.128.132 to your server IP'. At the bottom of the form is a 'Invoke Service' button. The footer of the page includes the Digital India logo, a note about e-Transaction data being reported by respective State/Ministry/Department, and the NIC INFORMATICS CENTRE logo. It also features the e-Governance Plan logo.

Data exchange in eTaal is based on web service. This page is used to add new web services/URLs in following steps:

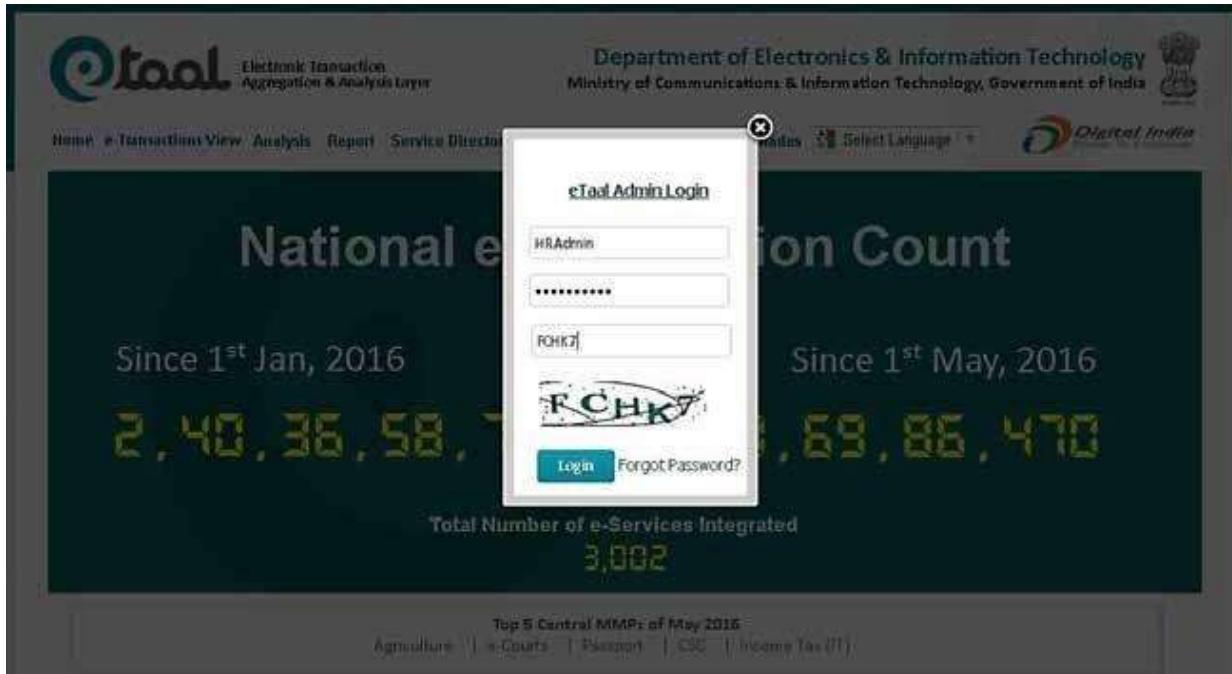

1. Select type of web service: Whether it is Web Reference Based or Web URL based.
2. Select State and Project Name.
3. Enter the complete URL of web service.
4. Enter 'Web Service Name' (Name of the class used in web service) and press 'Invoke Service'.
5. System will show all the methods available under selected web service.
6. Select the desired method name, system will show all the input parameters available under that selected web method. At the same time, it shows Return type of the method.
7. It provides Test Area which accepts the value of the input parameter and tests the output of the service using 'Get data' button.
8. Click on 'Save URL' button to save the web service in eTaal application.

Once the entire process as stated above is complete, the service is ready for integration with eTaal. Before integration, the e-Service is subject to validation and approval by the National Level Project Management Committee (PMC). Similar Committees exist at the level of States and UTs.

13. Approval

Steps for Service Approval by State Project Management Committee

For the Approval/Rejection/Modification of the service as enrolled by the User, the State Admin needs to login to eTaal using its login credentials. The login screenshot is shown as below.

Once logged in, the State Admin is required to click on the Approval tab in the menu bar as shown below:

The screenshot shows the eTaal platform interface for service approval. At the top, there's a logo for 'eTaal' and the text 'Electronic Transaction Aggregation & Analysis Layer'. To the right is the 'Department of Electronics & Information Technology' logo, 'Ministry of Communications & Information Technology, Government of India', and the Indian national emblem.

The navigation menu includes: Home, e-Transactions View, Analysis, Service Enrolment, Approval (which is highlighted with a red box), Report, Service Directory, State Portal, Audit Trails, FAQs, Accolades, and Contact Us. Below the menu are buttons for 'Select Language' (with English and Hindi options), 'Logout', and 'Change Password'.

The main content area is titled 'Approval' and has a sub-section titled 'Approval'. It contains a table with the following columns: Sl #, Ministry/Dept/State, Standard Service, Service Name, Brief Description, Category, Benchmark, ACS, Applied On, Approved By, Rejected By, Action, and Remarks. There are five rows of data in the table.

Sl #	Ministry/Dept/State	Standard Service	Service Name	Brief Description	Category	Benchmark	ACS	Applied On	Approved By	Rejected By	Action	Remarks
1	Assam [eDistrict Assam]	Agriculture & Allied	APPLICATION FOR SOIL FERTILITY REPORT	To know about the fertility of ones land a report can be asked from the competent authority. The final report includes the chemical analysis of the soil along with lime and fertilizer recommendations for the crop specified.	A	Y00F	F	21.01.16	N/A	N/A	<input type="radio"/> A <input type="radio"/> R <input type="radio"/> M	Change the c ▾
2	Gujarat	Police	Arrest Memo Form	This application captures the Arrest Memo and Chehra Nishan Patrak Details.	A	Y00V	P	20.02.16	N/A	N/A	<input type="radio"/> A <input type="radio"/> R <input type="radio"/> M	Select ▾
3												
4												

Below the table, there are buttons for 'Submit' and page navigation (1 | 2 | 3 | 4 | 5). The 'Action' column contains radio buttons for Approve (A), Reject (R), and Modify (M).

The State Admin needs to review the service details and accordingly click on Approve/Reject/Modify by clicking on Radio Button as shown in the below screenshot wherein;

A – Approve

R – Reject

M – Modify

Sl #	Ministry/Dept./State	Standard Service	Service Name	Brief Description	Category	Benchmark	ACS	Applied On	Approved By	Rejected By	Action	Remarks

The State Admin can review the services and accordingly “Accept”, “Reject” or “Modify” the service.

In case of Approval of service by the State Committee, the State Admin needs to select the radio button “A” and on clicking the “Submit” button, this service is forwarded to National eTaal Committee for approval.

For the approval of service, the service needs to be approved by atleast two State Committee members.

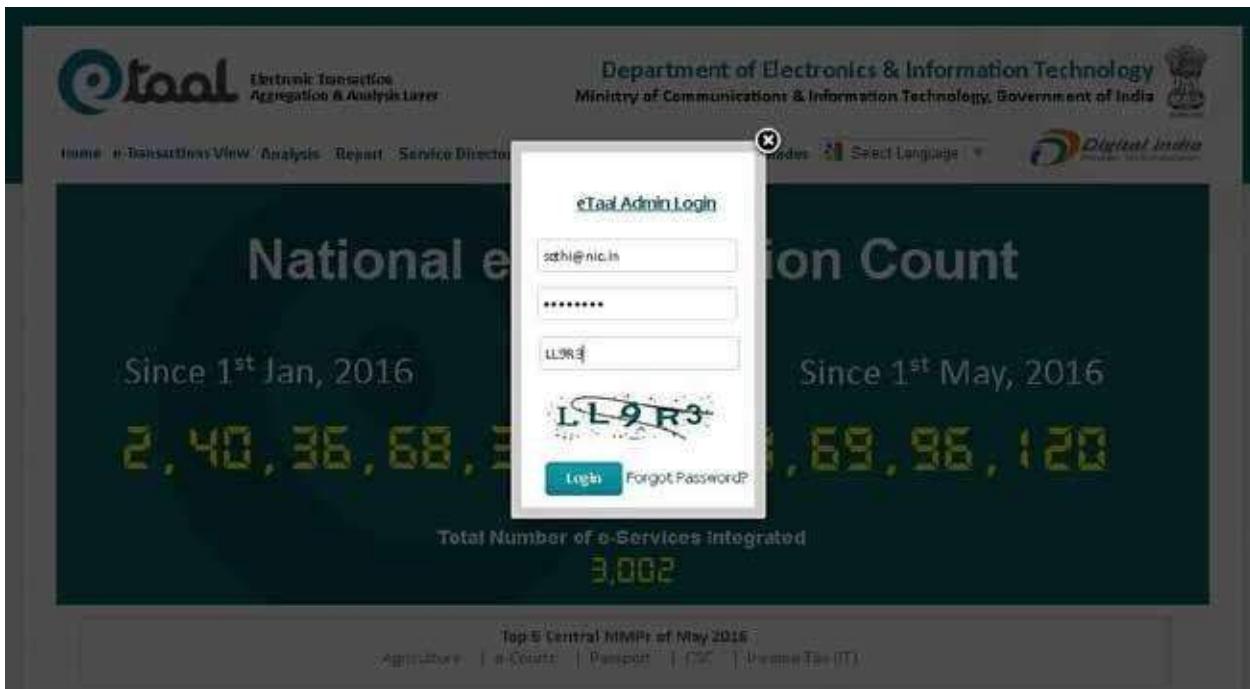

The State Admin needs to enter Remarks in case if “Reject” or “Modify” is selected, highlighting reason for rejection or modification of the service requested.

The service needs to be rejected / approved by atleast two out of three State committee members while it can be requested for modification by any one member.

Steps for Service Approval by National Project Management Committee

On Approval of the service by State Committee members, the service is forwarded to National eTaal Committee for approval.

To initiate the service approval process, the National eTaal Committee member needs to login to eTaal using its login credentials. The login screenshot is provided as below:

The National Committee members need to review the service details and accordingly click on Approve/Reject/Modify by clicking on Radio Button as shown in the below screenshot wherein;

A – Approve

R – Reject

M – Modify

The National Committee just like the state admins needs to enter Remarks in case “Reject” or “Modify” is selected, highlighting reason for rejection or modification of the service requested.

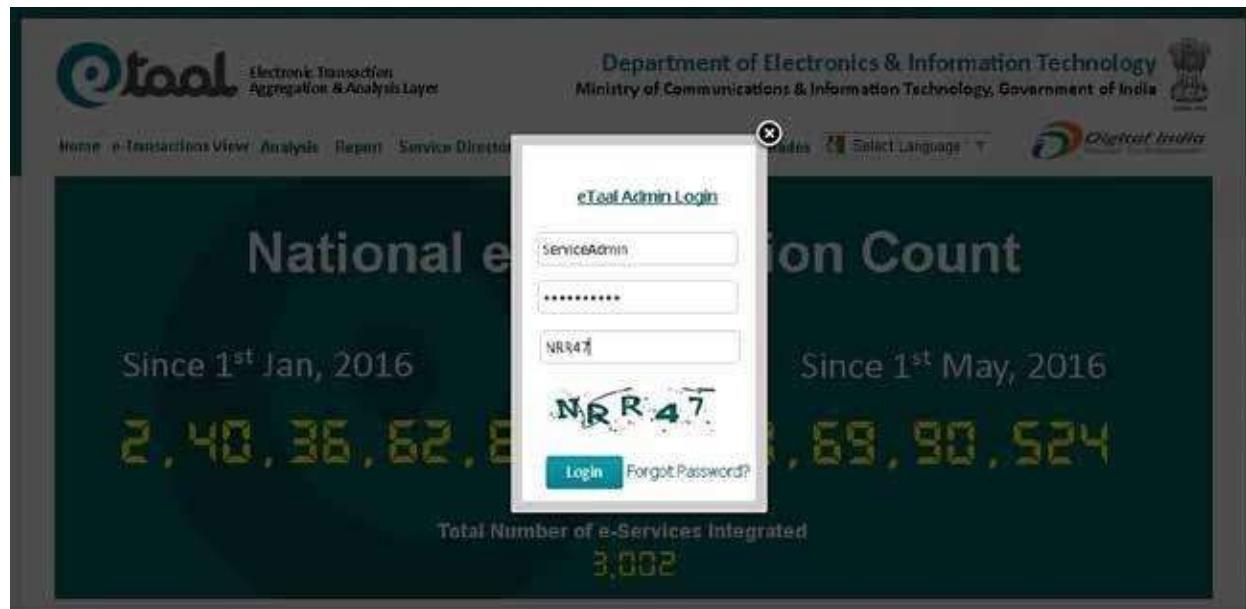

The service needs to be rejected/approved by three out of the five national committee members while it can be requested for modification by just one member.

After 3 levels of service Approval by the National Committee, this service is forwarded to Service admin for data verification of the service.

Steps for data Verification

After approval of the service by the National Project Management Committee, the service is now under data verification stage and needs to be approved by Service Admin.

For providing approval under verification stage, the Service admin needs to login on eTaal using his login credentials as per the below screenshot.

The e-Transaction count of the service is checked and verified for a specific period of time and if the count is less than or equal to the average count acceptable for the service, then Approval is given by the Service Admin to make service live on eTaal portal. However, in case the count is greater than the average, the service provider is questioned regarding the same through mail.

14. Technical Specifications of eTaal

Technical Specifications	Description
Technology	Microsoft Technologies with WCF, ASP.NET Framework 4.0, C#.Net
Operating System	Windows Server 2008 R2 Enterprise Edition
Database	SQL Server 2012 R2
Analytical Tool	Fusion Chart
Browser Supported	IE 7.0 or above, Mozilla Firefox 3.6 or above, Safari, Chrome 15.0 or above
Reporting	HTML Reporting
Minimum System Specification	Any desktop, laptop, tablet and mobile phones (Android/Windows/iOS, etc) with internet Access
Unicode Compliant	Yes
Concurrent Access	Yes

15. Architecture

eTaal is broadly categorized into the following three components:

1. Dashboard Server Connector (DSC)

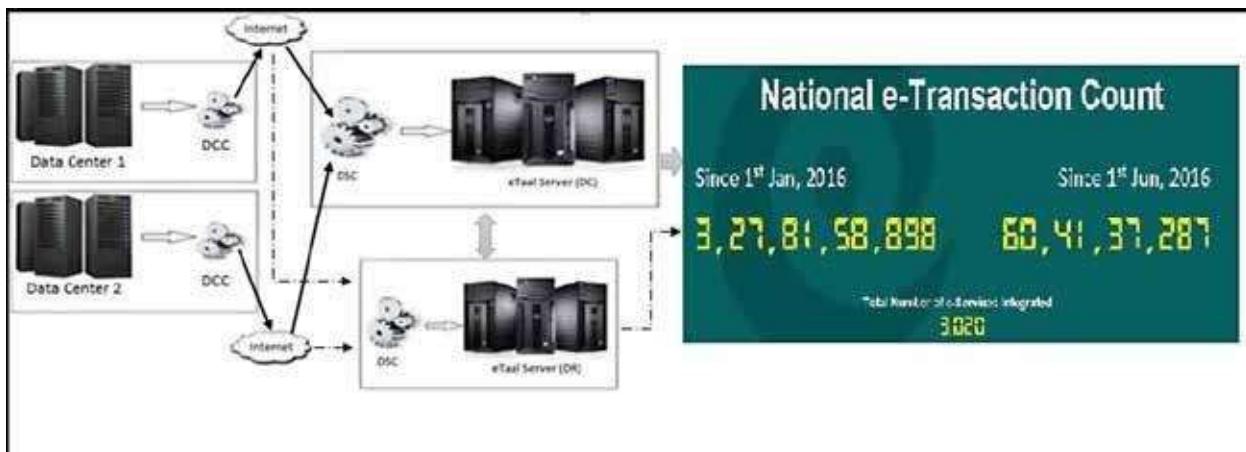

Dashboard Server Connector (DSC) runs as a service on Central Server and acts as watchdog to pull the e-Transaction count from various servers located at State and Centre.

2. Dashboard Client Connector (DCC)

Dashboard Client Connector (DCC) runs as a service on the Servers which are providing the e-Transaction count details.

3. eTaal Portal

eTaal Portal is a web portal to give view of dashboard.

Architecture of eTaal

In the architecture of eTaal drawn above, one dSC and multiple dCCs exists. One dCC is for each application.

16. Guidelines

This section provides guidelines for application administrator / developer to create Client Connector and deploy on their servers.

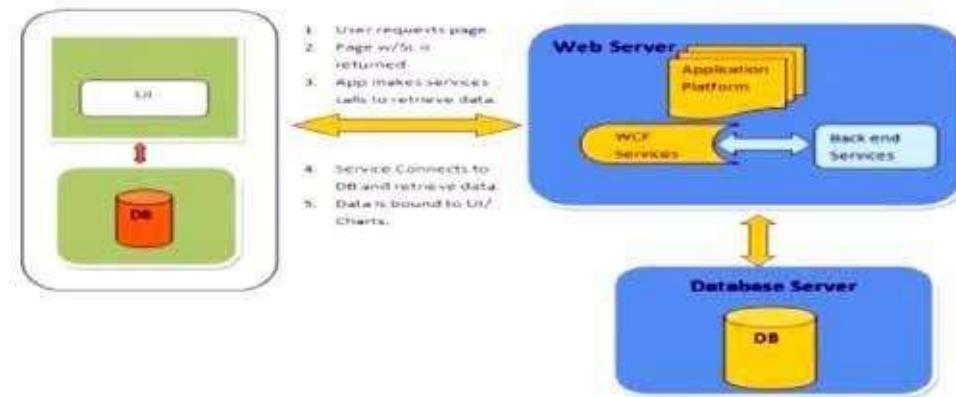

16.1 Prerequisites for participation in eTaal

1. Server on which the data that needs to be integrated with eTaal resides must be on Internet.
2. The application whose data needs to be integrated with eTaal may be on any operating environment (Windows/Linux; SQL Server/Oracle/MySQL/PostgreSQL; .Net /Java/PHP etc.)

16.2 Steps for creation of Client Connector

Client Connector may be Web Service, WCF service or URL based data sharing application. Client Connector may be written in any language(C#, VB.Net, Java, PHP etc.). Creation of Client Connector will consist of following steps:

1. Creation of Web Service or WCF service or URL based data sharing application
2. Creation of ‘Stored Procedure’ in the database which will give count of e-Transaction to web connector
3. Writing of the code to access stored procedure created to get the e-Transaction count.

16.3 Specifications of Client Connector

The **specifications** of Client Connector are given below:

Web Method Name: e-Transaction Count

Input Parameters: The web method created for the purpose will have following parameters:

S.No.	Parameter Name	Format	Example
1	Transaction date	dd/MM/YYYY	23/11/2012
2	User Name	String	MeitY
3	Password	String	xYz#\$36F

Response Type: The web method will return either XML or dataset.

Format of XML:

```
<?xml version="1.0" encoding="utf-8" ?>
<eTaal_State>
  <Response ServiceCode="A001102200002" Count="23" LocationCode="08"/>
  <Response ServiceCode="C008104800004" Count="56" LocationCode="09" />
  <Response ServiceCode="B005104200005" Count="92" LocationCode="13" />
  <Response ServiceCode="A016105900007" Count="31" LocationCode="31" />
</eTaal_State>
```

Format of dataset:

This will have following set of data: Service Code, Service Count, Location Code

Error Code Returned by Service

S.No.	Error Code	Error Description
1	-1	Transaction date parameter is missing
2	-2	Wrong credentials
3	-3	Data is not available on this date

16.4 Development and hosting environment

1. Client Connector can be created in any of the programming language i.e. Java, C#, VB. Net, PHP etc.
2. It can be hosted on any web server i.e. IIS, Apache Tomcat etc.

16.5 Post deployment steps

1. The port on which the service is running is required to be opened for eTaal Server Connector.
2. Share the URL of Web Service with User Name and Password to eTaal Administrator.

16.6 Data pulling mechanism and assumptions

Enrolment of web service by user

1. Web service is created by user and hosted on server where project (State/Central) related data resides.
2. Port opening request is made to provide communication between servers (i.e. from Project server to eTaal server).
3. Enrolment of web service is done from enrolment page (in Admin Corner) of eTaal.

eTaal Process of data pulling from a project

1. Port opening request is made to provide communication between servers (i.e. from eTaal server to the project server).
2. Approval of registration by Project Management Committee (PMC).
3. eTaal fetches data on daily basis by invoking web service with current date as parameter and following data is obtained:
 - a. List of services provided by project on given date.
 - b. Transaction count.
 - c. Date of transaction.
 - d. Location Code as per census (if any).
4. The Process of invoking web service is done as per schedule determined by the user during enrolment and data is updated (in case of zero transaction of service, no data is updated) in eTaal.
5. For projects having irregular data updating services, web service is invoked by eTaal, it will check for last update (date/time) and pull data from that date.
6. Reconciliation of data between eTaal and project server to be combined once a week.

Assumptions

1. The web service could be hosted on live server or on intermediate server, as defined during enrolment.
2. Data updated on the project server is accumulative during the day and is reset to zero at 00:00 hrs.

16.7 Sample Codes

Sample Code in .Net

Interface

```
[ServiceContract]
public interface IeTaalService
{
    [OperationContract]
    [FaultContract(typeof(InvalidCodeFault))]
    int eTransactionCount(DateTime TransactionDate, String UserName, String Password);
```

Implementation of Interface

```
public class eTaalService : IeTaalService
{
    #region Call StoreProcedure and Fetch Transaction

    string ConnectionString = System.Configuration.ConfigurationSettings.AppSettings["connectionstring"];
    public DataSet eTransactionCount(DateTime TransactionDate, String UserName, String Password)
    {
        try
        {
            var parms = new SqlParameter[3];
            parms[0] = new SqlParameter("@TransactionDate", TransactionDate);
            parms[1] = new SqlParameter("@UserName", UserName);
            parms[2] = new SqlParameter("@Password", Password);
            return (SqlHelper.ExecuteDataset(ConnectionString, CommandType.StoredProcedure, "SP_eTransactionCount", parms));
        }
        catch (Exception ex)
        {
            throw new FaultException<InvalidCodeFault>(new InvalidCodeFault(ex.Message), new FaultReason(ex.Message));
        }
    }
}
```

Sample Code in Java

```
package in.nic.exchange.actions;
import in.nic.exchange.db.DBConnection;
import java.sql.Connection;
import java.sql.PreparedStatement;
import java.sql.ResultSet;
import java.sql.SQLException;
import java.sql.Statement;
import java.text.SimpleDateFormat;
import java.util.ArrayList;
import java.util.Date;
import java.util.HashMap;
public class ExchangeWebService {

    public ArrayList<HashMap<String, float>> countRegistrationsActivitywise(Date date) {
        Connection con = null;
        PreparedStatement pstmt = null;
        ResultSet rs = null;
        System.out.println("date = " + date);
        String query = "select name, sum(transactions) as total_trns from refactivity ra left join

        e.printStackTrace();
    }
}
return 0;
}

}
```

17. Accolades Tab

The screenshot shows the eTaal homepage with a dark green header bar. On the left is the eTaal logo with the text "Electronic Transaction Aggregation & Analysis Layer". On the right is the "Department of Electronics & Information Technology, Ministry of Communications & Information Technology, Government of India" logo, featuring the Indian emblem. Below the header, there is a menu bar with links: Home, e-Transactions View, Analysis, Report, Service Directory, State Portal, FAQs, User, Accolades (which is circled in red), Select Language, and Digital India. The main content area has a teal background and displays the title "National e-Transaction Count".

The “Accolades” tab of the Menu Bar highlights the details of the “Awards” and “eTaal News”

This screenshot shows the same eTaal homepage as above, but the "Accolades" tab has been clicked, revealing two sub-links: "Awards" and "eTaal News", both of which are circled in red. The main content area remains the same, displaying the "National e-Transaction Count" statistics for January and June 2016, along with a bar chart titled "Top 5 States of June 2016".

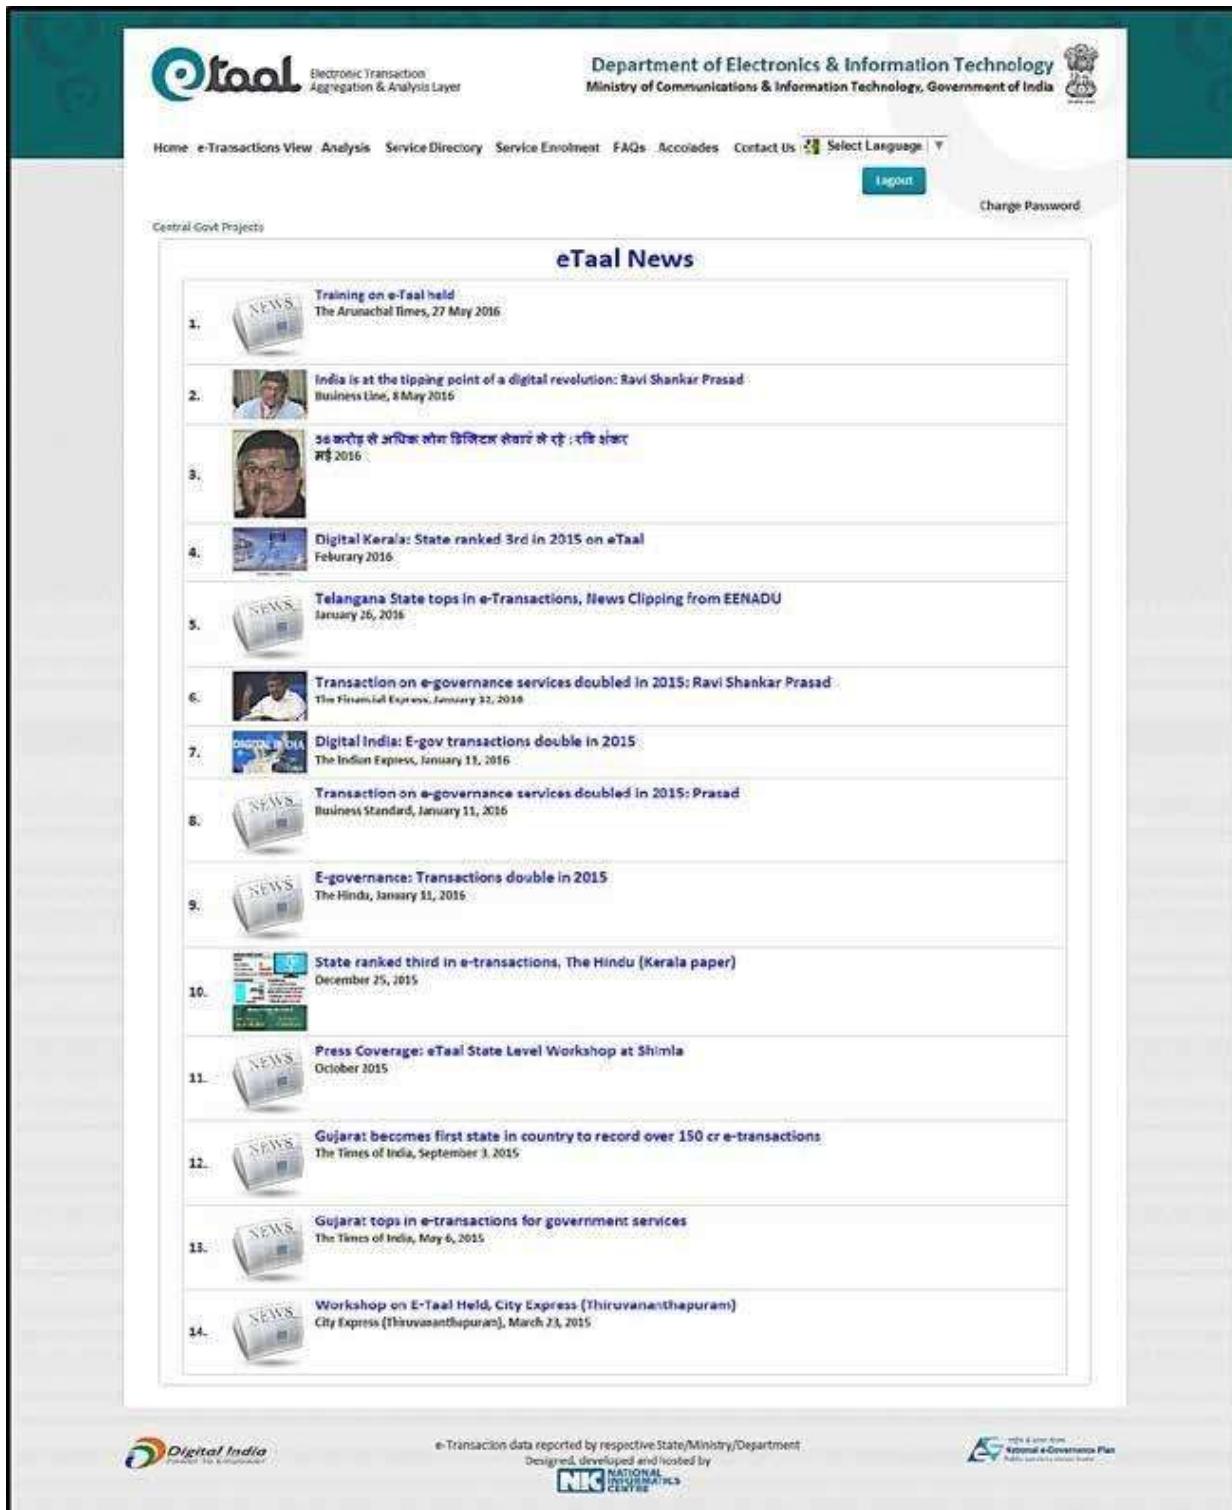

The “Awards” section under “Accolades” highlights the details of the awards won by eTaal project since its inception.

The screenshot shows the eTaal website's 'Awards' section. At the top, there is a navigation bar with links for Home, e-Transactions View, Analysis, Service Directory, Service Enrollment, FAQs, Accolades, Contact Us, Select Language, Logout, and Change Password. Below the navigation bar, there is a banner for 'Central Govt Projects'. The main content area is titled 'Awards' and features four award-winning images:

- Digital India Knowledge Exchange Award 2016
- eINDIA Awards 2014
- SKOCH Platinum Award 2013
- SKOCH Order of Merit 2013

At the bottom of the page, there are logos for Digital India, National Informatics Centre (NIC), and the Ministry of Electronics & Information Technology. There is also a note about e-Transaction data being reported by respective State/Ministry/Department.

The “eTaal News” section under “Accolades” highlights the news articles and announcements pertaining to eTaal as published in the leading newspapers.
